3718901	4433	1855 Seated Arrows Half Dime - NGC PF65	\$9,500.00	Mintage...20. Rare, Lightly Toned. The date is low and the arrows are high -- characteristics of the V-6 proof dies. Both the 1854 and 1855 Arrows proofs were struck in similar numbers, but the latter issue has a slightly higher estimated survivorship of 15 to 20 coins. While the 1854 issue may be slightly scarcer, both dates are of importance to type and series collectors. The present 1855 coin is a glittering Gem with faint ivory-gold patina and highly reflective fields. NGC Price Guide...\$13,250.

84904321	4461	1796 Draped Bust Dime - PCGS MS66+	\$275,000.00	First year of the American Dime. Extremely rare in mint state. Variety: John Reich-4. Rarity-4. Mint State-66 Plus. From the Pogue Collection. This superb gem is complete with toning that can be described as a patchwork quilt of color: gold and sea-green, pastel blue and rose, violet and amber, all over bright silver gray. Both sides of this very rare gem are simply, utterly, beautiful. The detail is phenomenal for the issue, from the complete denticles at the borders, through the well-defined stars, to the complete central devices. Both sides are reflective and fully lustrous. This example, with its illustrious provenance and long list of remarkable characteristics is securely among the very finest surviving examples of the first dime struck for circulation. In the hands of an advanced connoisseur, this would be an extraordinary centerpiece for a world-class type set or specialized dime collection. Third Party Independent Price Guide by Numismedia values this coin in a half grade higher of MS67...\$406,250.
11398213	38770	1807 Draped Bust Dime - PCGS MS66 CAC	\$95,000.00	PCGS Pop...3. None finer known. The Pittman coin from the Pogue Collection. John Reich-1. Rarity-2. Beautifully toned gem. A blue beauty, sparkling with satiny luster and thoroughly toned a lovely powder blue. Very boldly struck exceptional gem, free of marks or flaws, as pretty as a picture. 3718902	4529	1837 Capped Bust Dime - NGC MS66	\$8,750.00	None Finer known. Colorful Border Toning. The year 1837 witnessed the replacement of John Reich's Capped Bust design with Christian Gobrecht's Seated Liberty concept on the dime. This Premium Gem JR-2 example is among the finest of any variety at NGC and PCGS. Sharp stars and devices complement impressive satin luster, which is light golden in the centers and toned vivid aquamarine, olive, and russet around the borders. A highly appealing final-year type coin. NCG Price Guide...\$23,000.
3728810	4579	1841 Seated Dime - NGC MS65	\$2,900.00	In Gem condition, this date is decidedly rare, and the present example is especially attractive. Forest-green, gold, lilac, and rose toning are a visual delight, and the design elements are sharp.
3899682003	4605	1854 Arrows 10C - NGC MS65	\$1,350.00	F-102, High R.4, MS65 NGC. Ex: Highland Collection. A vertical die defect in Liberty's lap is diagnostic of the variety. This Gem example is frosted and lustrous over lightly iridescent silver surfaces. The strike is sharp with some deeper toning on the reverse legend. NGC Price Guide...\$2200
3728811	4668	1874 Arrows Dime - NGC MS66	\$3,600.00	F-101a, R.2. This is a remarkable, bright semiprooflike example that shows deep blue and russet rings surrounding the margins on each side. NCG Price Guide...\$4650
3718903	4697	1886-S Seated Dime - NGC MS66	\$3,500.00	Low-Mintage Branch-Mint Issue. A little more than 200,000 dimes were struck in San Francisco in 1886, making the 1886-S a slightly better date in all grades and genuinely scarce in Mint State. This delightful coin displays vibrant mint luster under iridescent champagne-gold and varying shades of ocean-blue color. The design elements are sharp and eye appeal is excellent NGC Price Guide...
3728812	4747	1858 Seated Dime. - NGC PF65	\$3,500.00	Mintage...100. F-101, R.5. Nine certified finer by NGC. Only a small percentage of the 50 to 70 proof 1858 dimes known today have the level of preservation needed for a Gem grade. This is a sharp, deeply mirrored example with a hint of contrast beneath delicate rose-gold toning on each side. Eye appeal is outstanding. NGC Price Guide...
3501904	4748	1859 Seated 10C - NGC PF66	\$3,500.00	Mintage...800. 1858 was the second year of the Mint's commercial proof offerings. This delightful Premium Gem displays sharply detailed design elements. The well-preserved surfaces exhibit reflective fields, under shades of pale gold and violet toning. Census: 27 in 66, 6 finer (6/17). NGC Price Guide...\$5600.
3728813	84748	1859 Seated Dime - PCGS PR65CAM	\$2,400.00	Mintage...800. Toned Borders Around Brilliant Centers. This example displays mirrored fields and strong contrast with frost-white central devices. Intermittent areas of blue and reddish-gold toning at the margins surround brilliant centers. PCGS Price Guide...\$4000.
3569503	4806	1895 10C - PCGS MS66	\$4,400.00	From a small mintage of 690,000 pieces, the 1895 Barber dime is the rarest Philadelphia Mint issue of the series. This spectacular Premium Gem exhibits sharply detailed design elements and well-preserved surfaces, under attractive shades of lavender-gray and golden-tan toning. Satiny mint luster shines through the patina. Population: 24 in 66 (13 in 66+), 4 finer. Price Guide...\$6400
3732805	4812	1897 Barber Dime - PCGS MS66	\$750.00	Stunning collection of light tones adorn this barber dime with only a handful graded finer. PGS Price Guide...975.
34401773	4828	1902-O Barber Dime - PCGS MS65 CAC	\$3,550.00	Dusky golden-gray toning in the centers gradually cedes to sun-gold and amber at the borders, revealing olive undertones here and there. This Gem is well-struck. The 1902-O is scarce in all Mint State grades and decidedly rare in MS65. Only a half dozen finer pieces are reported by PCGS and NGC combined. PCGS Price Guide in MS65...\$4500. In MS66...\$6750
3706807	4844	1907-O Barber Dime - NCG MS65	\$950.00	Beautiful cobalt and rose toning on both obverse and reverse. NGC Price Guide....\$1300
82656158	4870	1916 Barber Dime - PCGS MS67	\$2,400.00	None Finer at either service. The final-year issue for the Barber dime overlaps with Weinman's new "Mercury" design. This is a highly lustrous example with brilliant surfaces, complemented by slight golden-tan toning on each side. A fully struck and frosty Superb Gem. PCGS Price Guide...\$2750.
3706802	4880	1896 Barber Dime - PCGS PR65	\$875.00	Mintage...762. A fully struck proof with reflective fields beneath a blanket of dusky champagne-gray toning on each side. Some deeper olive hues emerge on the reverse at certain angles. No contact marks are visible on this lightly toned Gem. PCGS Price Guide...\$1500.
3706808	4915	1917-S Mercury Dime - PCGS MS65FB	\$1,250.00	PQ. Very attractive gem with full bands. CDN Collectors Price Guide in MS65FB...\$1190. In MS66FB...\$1560.
31385753	5369	1822 Capped Bust Quarter - PCGS PR67 CAC	\$290,000.00	The finest known 1822 Proof quarter, and the finest known example of the date in any finish. Browning-1. Rarity-8 as a Proof. This extremely rare and exceptional piece shows refined contrast between the deeply frosted figure of Liberty and the mirrored surfaces that surround her. Pale violet dominates the central obverse, while blue and gold form a beautifully toned periphery. The reverse is brilliant at center with a subtle overtone of gold, while the border displays bright blue, gold and hints of violet. The aesthetic appeal is that of high art, appearing more beautiful as the eye studies it more and more. The strike is firm, and the eagle's talons show never-seen levels of detail. The surfaces show no post-striking issues and the dies, as expected, are perfect.

3728814	5491	1873 Arrows Quarter - NGC MS65	\$3,300.00	Few Available in This Grade. Briggs 3-B. In demand for type and a favorite issue of Seated quarter collectors, the 1873 Arrows is rare in Gem or finer grades with only about two dozen pieces extant. This example is sharply struck and has Cartwheel mint luster illuminating satin-smooth fields. Orange-gold accents surround lightly toned silver centers.
1963065002	5503	1876-S 25C - NGC MS66	\$2,250.00	Ex: Pittman. Type Two Reverse. The warm rose-gold tints that drape the lustrous obverse show considerable blue intermixed on the reverse. Excellent design definition and preservation with eye appeal to match both. Tied for numerically finest in the combined certified population (10/17). NGC Price Guide...\$5000.
3706803	5592	1891 Seated Quarter - PCGS PR67	\$3,600.00	Mintage...600. Final year proof type coin. Old Green Holder. Briggs 1-A. Rotation beneath a light exhibits rich peach, olive-gold, lilac, and blue-green toning. The deeply mirrored fields are undisturbed beneath the rich patina. The strike is sharp, and the surfaces are clearly original. Only one graded PR68 by PCGS. PCGS Price Guide...\$5000
3706804	5633	1902-S Barber Quarter - PCGS MS65	\$2,750.00	From a mintage of 1.5 million pieces, the 1902-S Barber quarter is rare at the MS65 grade level. This attractive Gem exhibits well-preserved, lustrous surfaces and sharp design elements under shades of lavender-gray and golden-brown toning. PCGS Price Guide...\$3250.
3636906	5643	1906-D Barber Quarter - NGC MS65	\$1,375.00	Satiny white with a very minor delicate champagne hue, this Gem 1906-D Barber quarter is not only conditionally scarce, it is very attractive. NGC Price Guide...\$1750
3636908	39201	1794 Flowing Hair Half Dollar O-101A - NGC VG8	\$5,000.00	Well-Worn Yet Pleasing. Iridescent toning melds into a brownish-gray and blue patina, with silver-gray high points. NGC Price Guide...\$8,750.
3718906	6051	1794 Flowing Hair Half Dollar - PCGS VG08	\$5,000.00	Highly Collectible First-Year Issue. O-101a, T-7, High R.3, VG8 PCGS. Tompkins Die State 1/5. Free of adjustment marks, this smoothly worn Overton-101a (T-7) retains a sharp date and only slight merging of the dentils along the right obverse border. Gunmetal-gray toning surrounds lighter devices. A glass reveals some interesting planchet "bubbles" scattered among the upper stars and LIBERTY, visible with a lens. PCGS Price Guide...\$6500
3636909	39201	1794 Flowing Hair Half Dollar O-101A - PCGS VG08	\$5,000.00	Tompkins Die State 1/5. Thin adjustment marks appear on the lower obverse near the date and across the reverse, these being made by a Mint worker to correct an overweight planchet. Olive-gold and gray patina includes accents of mint-green and pale blue that contribute considerably to the appeal of this well-circulated 1794 half dollar. PCGS Price Guide...\$6500.
3636910	39201	1794 Flowing Hair Half Dollar O-101A - NGC VG8	\$5,000.00	Sought-After at Any Level. Tompkins Die State 1/5. The all-important 1794 date, representing the first year that the Philadelphia Mint engaged in the production of silver coinage, is clear on this circulated half dollar. Richly toned in olive and lavender-gray patina. NGC Price Guide...\$8,750.
3636911	39201	1794 Flowing Hair Half Dollar O-101A - NGC VG10	\$5,500.00	Nice Eye Appeal. Tompkins Die State 1/3. Struck from a mid-to-late state of the reverse die. The obverse shows remnants of a few minor adjustment marks in the hair and at the rims. A golden sheen overlays silver-gray surfaces and deepens slightly at the borders. The date is fully visible and all of the motifs are well-defined for the grade level. NGC Price Guide...\$8,750.
3636913	39201	1794 Flowing Hair Half Dollar O-101A - NGC F15	\$8,500.00	Tompkins Die State 1/5. Olive, charcoal, and steel-gray tones blend over this smooth, well-worn flowing hair representative. Outlines of the central devices and the peripheral design elements are bold. A wonderful example of this extremely popular first-year issue. NGC Price Guide...\$12,250
3636914	39201	1794 Flowing Hair Half Dollar O-101A - NGC VF20	\$15,500.00	Strong Details Remain. Tompkins Die State 1/5. This coin may be struck from a late state of the dies, but it shows none of the die sinking responsible for the often-seen weakness in the centers. The eagle's head features a strong outline, and good definition remains on a few of the wing feathers. The same is true of Liberty's portrait, which exhibits partial delineation of the middle curls, not just the lower ones. Patina is lighter over the relief elements than it is in the fields, as expected. A smooth and appealing example of the date. NGC Price Guide...\$25,500.
3636915	39201	1794 Flowing Hair Half Dollar O-104 - NGC F12	\$8,500.00	Mintage...23,464. Evenly Struck. Tompkins Die State 1/3. In this die state, the obverse has yet to form a break through star 3, while a rim cud has developed between ER on the reverse. O-104 is a rare die marriage, as are most varieties for the 1794 half dollar. Interestingly, the reverse die was produced using a unique master hub (see Tompkins p. 437 for distinguishing features). This Fine 12 example exhibits deep gunmetal-gray patina that lightens over the motifs, which show relatively good detail, especially on the eagle. The obverse exhibits numerous crisscrossing adjustment marks, but the surfaces are otherwise smooth. NGC Price Guide...\$12,250
3718905	6051	1794 Flowing Hair Half Dollar - NGC F12	\$8,500.00	First Year of the Denomination. O-101, T-7, High R.3, Fine 12 NGC. Tompkins Die State 1/2. An early die state, where a light crack near the first S in STATES has formed and extends to the nearby leaves. An earlier crack at the F in OF does not extend beyond mid-letter. Silver-gray centers transition to golden-gray at the margins on the obverse, with a small rim bump near star 10. There are no adjustment marks or other significant marks for the grade. NGC Price Guide...\$12,250
3718907	6051	1794 Flowing Hair Half Dollar - NGC VF20	\$15,500.00	O-101a, T-7, High R.3, VF20 NGC. Tompkins Die State 1/5. This is a deeply toned, sharply defined VF example of the Flowing Hair design, an historic two-year type by the Mint's Chief Engraver, Robert Scot. The 1794 is much more challenging than the 1795 for type, yet it is infinitely more desirable as the first year of issue for both type and denomination. Shades of gunmetal-gray and deep lavender cover both sides. Light obverse adjustment marks are confined to a small area on the central hair strands and along the lower-right border. NGC Price Guide...\$25,500.
3615615	39201	1794 Flowing Hair Half Dollar O-101A - NGC VF30	\$15,500.00	Popular O-101a, T-7 Variety. Tompkins Die State 1/3. Only 23,464 Flowing Hair half dollars were struck in 1794, with 11 die varieties known for the date. Star 1 pierces the lowest curl near the center on this coin, and there are 21 berries, arranged 10 left and 11 right on the reverse, that identify the popular O-101 variety. This impressive VF30 example retains some interior detail on the central portion of Liberty's hair and all major design detail remains intact. The pleasing surfaces are blanketed in shades of lavender-gray and golden-brown toning and a shallow scrape below star 8 is the only abrasion of note. Hints of original luster shine through the patina. NGC Price Guide...\$25,500.

3615616	39201	1794 Flowing Hair Half Dollar O-101A - NGC XF40	\$33,000.00	Original Patina. T-7, High R.3. The die crack at the F in OF continues all the way to the final S in STATES, identifying the O-101a die state. Both sides are sharply defined and evenly struck with complete border dentils. On the obverse, Liberty's hair strands and the eye is well-defined. Planchet adjustment marks crisscross the portrait and appear along the lower and right borders. The reverse shows sharp feather detail on the eagle's wings with wear on the breast and neck. Original olive-gray patina blankets each side. NGC Price Guide...\$39,750
3615617	39201	1794 Flowing Hair Half Dollar O-101A - NGC XF40 CAC	\$39,000.00	Smooth, Appealing Surfaces. Well deserving of the CAC designation. The 1794 half dollar is most often seen in heavily circulated grades, frequently with cleaning, tooling, or other impairments. High-end circulated coins are rare, and in this condition there is little room to be choosy when it comes to die variety. This Choice XF coin represents exceptional quality for the issue. The olive-gray surfaces are smooth and unquestionably original, showing lighter patina on the high points of the devices. Strong hair and wing feather detail remains, with wear visible on Liberty's cheek and the eagle's breast. The borders are sharp and free of adjustment marks, although some of the latter are seen within Liberty's hair strands. Only 23 finer (3/18). NGC Price Guide...\$39,750. PCGS Price Guide...\$51,000.
3700801	6051	1794 Flowing Hair Half Dollar - NGC VG08	\$5,000.00	O-101, T-7, High R.3, VG8 NGC. Tompkins Die State 1/2. Overton-101 is the only 1794 variety with 21 berries -- 10 left, 11 right. The berry count is clear on even this VG coin, which is an easy way to confirm the variety when all berries are visible. The eagle's wings are just about smooth with only a trace of feather detail. We note the holder calls this example O-101a (the late die state), but it is believed that this is actually an earlier O-101 die stage without the late-forming extended crack beneath O in OF to the final S in STATES. NGC Price Guide...\$8750.
3636916	6159	1831 Bust Half Dollar - PCGS MS64	\$2,750.00	O-110, R.2, Lavender and Rose Accents. An original and highly appealing near gem Bust half. Attractive lavender and rose toning adds interest to the smooth and lustrous silver-gray surfaces of this Choice O-110. The upper reverse displays a few glimpses of charcoal patina. Well struck. PCGS Price Guide...\$3,500.
3700802	6159	1831 Bust Half Dollar - PCGS MS64	\$2,750.00	Highly Lustrous, Attractively Toned. MS64 Secure. This is an extremely lustrous near-Gem example, with blue, violet, and reddish-gold toning at the borders and primarily silver-gray interiors with pale-tan accents. PCGS Price Guide...\$3500.
3700804	6164	1834 Bust Half Dollar - NGC MS64 CAC	\$3,850.00	Small Date, Small Letters, O-109, R.1. A rich blanket of blended autumn-brown and olive-green toning endows this Choice Uncirculated Capped Bust type coin. The strike is sharp with subtle iridescence glows from beneath the attractive patina. CDN Price Guide in MS64...\$3600. In MS65...\$9840.
3636917	6239	1842 Medium Date Seated Half Dollar - NGC MS65	\$6,900.00	WB-105, Die Pair-12, Triple Punched Date. Ex: "Col." E.H.R. Green. NGC has certified only four 1842 Medium Date half dollars of this variety as MS65 with one higher (2/18); it is also the plate coin from NGC's 1842 Medium Date half dollar Coin Explorer. Pleasing crescent moon-shaped blue and gold toning covers silvery fields on both the obverse and reverse. This variety shows the digits 842 slightly repunched north one above the other three times. NGC Price Guide...\$9500. In one Grade Higher NGC Price Guide is \$33,500.
3636918	6288	1856-O Seated Half Dollar - PCGS MS65	\$5,500.00	Rich Peripheral Patina. PCGS Secure. Bands of blue-green and autumn-brown endow the borders of this lustrous and virtually unabraded Gem. The 1856-O is readily obtained in well circulated condition, but the antebellum issue becomes rare at the MS65 level. PCGS Price Guide...\$6,350.
3718909	6343	1873 Arrows Half Dollar WB-109, Bold Doubled Die Obverse - NGC MS65	\$9,750.00	Small Arrows, Doubled Die Obverse, WB-109, FS-101, MS65 NGC. This Small Arrows variety exhibits arguably the boldest die doubled obverse in the entire Seated Liberty half dollar series. The doubling is easily seen on Liberty's gown folds, fingers, and foot, as well as the scroll, and the shield stripes which exhibit four lines each instead of the normal three. This variety is rare in Mint State, although the 1873 With Arrows half dollar is a rarity at the Gem grade level regardless of variety. This coin displays soft, satiny luster beneath intermingled shades of burgundy-red, olive-green, and gunmetal-gray toning. The strike is sharp making this an important piece for the advanced Seated half dollar specialist. NGC has seen only seven pieces in this grade (two in MS65+), all varieties included, with just four finer (4/18). CDN Price Guide for a common date in this series...\$15,400.

An important condition rarity at this grade level. NGC Price Guide...\$15,500
3700810	6520	1910-S Barber Half Dollar - PCGS MS65	\$3,050.00	Surviving Mint State 1910-S half dollars are dispersed throughout many grades, but those in Gem or better condition are scarcely seen. 3680204	6878	1799 Draped Bust \$1 - NGC XF40	\$3,950.00	BB-163, B-10. Rarity-2. Olive-gray patina dominates the obverse appearance, although the reverse is predominantly pewter gray in tone with only speckled highlights of the former. Well centered in strike, if a bit lightly impressed over the high points, the detail is still suitably bold for the assigned grade. A small flan flaw at 1 o'clock relative to the obverse border is also evident on the reverse. NGC Price Guide...\$4550. CDN Collectors Guide...\$4800.

This is the well-known Dotted Date variety, so named for the small die chips that encircle the first O. Bowers comments in his Silver Dollar Encyclopedia that "tiny dot-like die breaks appear in many other places, particularly between L and I, under nose, before chin, below first star, and under the 6th and 7th stars. The steel used to make this die must have been defective." This coin is mostly grayish-gold with tinges of pinkish-gold appearing on the reverse along with a bit of electric blue.

With 9,519,000 pieces produced, the 1877-S has the highest mintage in the brief trade dollar series of 1873 to 1883. 9990005	11217	1836 Gobrecht Silver \$51 (J-58) - NGC PF64	\$100,000.00	Gobrecht-designed dollars were struck in 1836 to reintroduce the denomination to a new generation. The strike details are full with complete hair definition. All the eagle's breast feathers are completely articulated on the reverse. The production of 18 pieces for the Name Below Base is an apocryphal mintage that is traceable to Edward Cogan in 1867. While no exact mintage is known for this issue, judging from the number of survivors known somewhere around 60 to 100 pieces were probably made. As with all Gobrecht dollars, they were struck in proof format and most likely struck twice to bring up high point definition. This is a stunning Judd-58. The fields are brightly mirrored and devoid of any noticeable contact marks. As mentioned above, the striking definition is strong. The foot of Liberty is the usual place to look for fullness of strike on a Gobrecht dollar, and here it has medal-like clarity of detail. The centers are brilliant with light golden toning encircling the margins. Mintage...probably 60 to 100.
3542101	11354	1838 Seated \$1 (J-85) Res. - PCGS PR65+ CAC	\$200,000.00	Mintage...Unknown. These pieces are extremely rare. Many variants of Gobrecht dollars were struck beginning in 1836, continuing in 1837, 1838, and 1839, picking up again in the late 1850s and continuing through the 1870s. Of these many issues the only date that is believed to actually have been coined as a pattern is the 1838. Each side displays variegated shadings of rose, blue, golden, and brown, lighter in the center of the obverse and deeper around the margin. The strike is full. This includes complete definition on the foot of Liberty, the eagle's breast feathers, and the right-side stars on the obverse.
35640435	61685	1874 \$20 Copper J-1381 - PCGS PR62PN	\$20,000.00	Traditionally listed as dies trial strikings for the Type Two Liberty double eagle, USPatterns.com suggests Judd-1381 was more likely produced for sale to collectors as part of complete off-metal sets. Only one or two examples of this rare issue are known in copper (Judd-1381) This impressive proof exhibits sharply detailed design elements throughout, with no trace of wear on the devices. An attractive specimen of this extremely rare pattern issue.
