9029	1896 \$20 Liberty - PCGS MS64	\$3,300.00	Nearly the entire population of 1896 double eagles at the leading certification services falls within the grade range of MS61 to MS63. Comparable near-Gems are very scarce, and only a handful of MS65 representatives are known. This smooth, softly frosted double eagle with peach-gold color certainly appears finer than the grade suggests. The obverse fields are remarkably unabraded. Razor-sharp strike. PCGS reports seven finer

It exhibits sharply detailed design elements in bold sculptural relief. A thin wire rim, or fin, is present around the edge of the coin, caused by metal that was extruded through the narrow gap between the die and collar when this coin was struck. The well-preserved golden surfaces are lustrous and appealing. NGC

9173	1922 \$20 Saint - PCGS or NGC MS65	\$3,500.00	The 1922 is a very common issue in terms of total number of Mint State pieces known. Obtaining one in MS-63 is really no problem at all. 11217	1836 Gobrecht Silver S\$1 (J-58) - NGC PF64	\$100,000.00	Gobrecht-designed dollars were struck in 1836 to reintroduce the denomination to a new generation. The strike details are full with complete hair definition. All the eagle's breast feathers are completely articulated on the reverse. The production of 18 pieces for the Name Below Base is an apocryphal mintage that is traceable to Edward Cogan in 1867. While no exact mintage is known for this issue, judging from the number of survivors known somewhere around 60 to 100 pieces were probably made. As with all Gobrecht dollars, they were struck in proof format and most likely struck twice to bring up high point definition. This is a stunning Judd-58. The fields are brightly mirrored and devoid of any noticeable contact marks. As mentioned above, the striking definition is strong. The foot of Liberty is the usual place to look for fullness of strike on a Gobrecht dollar, and here it has medal-like clarity of detail. The centers are brilliant with light golden toning encircling the margins. Mintage...probably 60 to 100.
11217	1836 Silver Gobrecht \$1 (J-58) - NGC PF62	\$42,000.00	Name Below Base, Judd-58 Restrike, Pollock-61, R.6(?) - As one would expect from a proof produced in the late 1850s, the fields are deeply mirrored on each side. This is apparent even through the multiple layers of deep blue, gray, and rose-golden toning that cover each side. The high points of the design are completely brought up, including Liberty's head, foot and sandal, and the eagle's breast feathers. NGC Census: 1 in PR62, 9 finer.
11354	1838 Seated \$1 (J-85) Res. - PCGS PR65+ CAC	\$200,000.00	Mintage...Unknown. These pieces are extremely rare. Many variants of Gobrecht dollars were struck beginning in 1836, continuing in 1837, 1838, and 1839, picking up again in the late 1850s and continuing through the 1870s. Of these many issues the only date that is believed to actually have been coined as a pattern is the 1838. Each side displays variegated shadings of rose, blue, golden, and brown, lighter in the center of the obverse
60984	1869 50C Standard Silver Half Dollar, J-754 - PCGS PR66	\$2,900.00	Mintage...Unknown. NONE FINER KNOWN. A bust of Liberty wears a headband inscribed LIBERTY and ornamented with a star facing right, the legend UNITED STATES OF AMERICA surrounds the figure, and a scroll with IN GOD WE TRUST is below. The reverse has 50 CENTS centered in a wreath of oak and laurel with STANDARD SILVER above and the date 1869 below. Struck in silver with a reeded edge. Deep violet and iridescent
