PCGS #	Colonials, Tokens & Medals	Price	QTY	Description
902860	Undated (ca. 1652-1674) St. Patrick Farthing. Martin 1d.1-Ba.11 -- PCGS VF25	\$7,750	1	Attractive pearl gray and silver-olive surfaces with good gloss. The obverse is trivially off center to 11 o'clock, affecting only the denticulation, the reverse is better centered, and all major design elements on both sides remain bold. Martin 1d.1-Ba.11 is the most available of the 15 St. Patrick farthing die varieties known in silver, but still rare in absolute sense with just a few dozen examples extant. Martin estimates that no more than 100 silver St. Patrick farthings exist in total.
902860	Undated (ca. 1652-1674) St. Patrick Farthing. Martin 1d.1-Ba.11 -- PCGS VF35	\$9,900	1	Desirable Silver St. Patrick Farthing. A rare and eagerly sought type in this metallic composition. Well struck and centered with no appreciable softness apart from where expected (for the grade) wear engages the design elements. All remain boldly outlined and fully appreciable, the surfaces smooth apart from a few trivial marks in the expansive field areas, both sides with nice gloss. Attractively toned, as well, with glints of steel to otherwise blended deep silver and olive-gray.
52	Undated (ca. 1828 ) American Plantations Token, or 1/24 Part Real. Restrrike -- PCGS MS64	\$3,250	1	Pop 3 with none finer. Outstanding quality for this issue. The surfaces are bright silver-gray with strong frosty luster - quite unlike the typical original striking that has a dark, matte-like appearance, often due to environmental damage. Well centered, a bit better so on the obverse, with crisp detail throughout the design. PCGS Price Guide...\$5,500.
58	Undated (ca. 1694) London Elephant Token - PCGS MS63BN	\$14,500	1	Pop 3 with 4 finer. Another superb example of the scarcer thin planchet format, one both more elusive and usually better struck than the thick planchet. This is on a virgin flan, with bright golden luster barely faded from mint color on the obverse and a mottling of gold, light brown, and violet blue on the reverse. Crisply struck, well centered on the obverse, trivially aligned to the right on the reverse virtually a problem free. A very high grade, nice looking example of the type. PCGS Price Guide...\$22,500.
9999	1723 'DEI' Gratia 1/4 Pence -- NGC MS62BN	\$775	1	...
921517	1723 Wood's Hibernia Halfpenny. Martin 4.15 -- PCGS XF45	\$490	1	...
920822	1723 Wood's Hibernia Halfpenny. Martin 4.31 -- PCGS MS62BN	\$675	1	A lovely example with plenty of faded mint red color remaining on otherwise lightly toned olive-brown surfaces.
920818	1723 Wood Hibernia Halfpenny -- PCGS MS65RB	\$3,300	1	A simply beautiful type coin, a magnificent survivor of this issue. Richly lustrous and boasting most of the original mint color, lightly mellowed in the fields and on the devices.
179	1723 Wood's Hibernia Farthing, Silver -- PCGS SP64	\$35,000	1	Unique. Mintage Unknown. A fabulous example of the rare and desirable pattern strike Wood's Hibernia farthing in silver. This piece almost certainly derives from the small cache that turned up in Europe in the 1970s. Gunmetal toning appears mottled over silvery surfaces. Strike definition is razor-sharp on this Choice specimen.
236	1766 Pitt Halfpenny, Copper -- NGC MS65BN	\$25,000	1	Pop 2 with none numerically finer at NGC or PCGS. Rich mahogany-brown on the obverse with the soft glow of faded mint red undertones over much of the surface. These are incredibly rare in high grade. A Pitt halfpenny is on every colonial collectors want list. They exist in every grade, as they seem to have been commonly adopted among the circulating coppers for their size and similar design. Despite the relatively large numbers issued they are incredibly rare in high grade. NGC Price Guide...\$25,000.
246	1773 Virginia "Penny" -- PCGS PR64 BN	\$25,000	1	Mintage Unknown. Pop 3 with only 7 Finer. A lovely and impressive example of this classic colonial rarity. Both sides possess a rich and evenly distributed chestnut-brown patina, with flashy silvery-blue iridescence as well as a few hints of mint red. Crisply impressed from the dies and well centered on the planchet; one will be challenged to locate a singularly bothersome area of striking incompleteness, with the legends and devices standing in pinpoint definition. All told, simply a beautiful and high-end representative of this celebrated type. Struck on highly prepared planchets from a unique set of dies, the Virginia "penny" coins were never intended for commerce. While a few are known with evidence of circulation, most are fairly nice, well-preserved in the upper class 18th century English collections for which they were intended. As the most impressive form of the only truly "colonial" coin in the United States, the Virginia penny is a classic rarity, avidly sought in every state of preservation. Fewer than 30 examples are thought to exist. PCGS Price Guide...\$25,000
731	1738-S Sou Marque, Reims Mint -- PCGS AU50	\$475	1	With nearly intact silvering to warmly toned, light rose and pewter-gray surfaces.
731	1738-V Sou Marque, Troyes Mint -- PCGS AU55	\$450	1	An attractive piece with full silvering, a generally bold strike, and appreciable mint frost.
731	1739-V Sou Marque, Troyes Mint -- PCGS MS63	\$3,300	1	Nice pale gold and gray in color on both sides. an impressively smooth appearance for surfaces that exhibit full silvering and strong luster.

731	1739-R Sou Marque, Orleans Mint -- PCGS AU55	\$1,750	1	A really exemplary example of this extremely rare punctuation variant, with a stop after the R mintmark on the obverse. The piece is a nice pale silver-gray in color, the hue nearly uniform across both surfaces.
731	1739-T Sou Marque, Nantes Mint -- PCGS XF45	\$250	1	Richly toned in copper-gray and steel-olive patina with traces of silvering that are clearest in the center of the obverse.
731	1740-S Sou Marque, Reims Mint -- PCGS AU Details	\$450	1	This is the final year of issue of the denomination from the Reims Mint. This specimen is pale gray in the fields, slightly darker on the higher points
731	1740-Q Sou Marque. Perpignan Mint. -- PCGS MS62	\$2,200	1	Sharply struck with full silvering and a bright frosty to semi-reflective finish - a rare set of attributes in a sou marque from the challenging Perpignan Mint.
731	1741/39-R Sou Marque, Orleans Mint -- PCGS XF45	\$290	1	Mottled steel and dove-gray patina with a few swirls of deeper charcoal in and around the central obverse.
731	1741/0/39-R Sou Marque, Orleans Mint -- PCGS MS61	\$950	1	A very sharply struck specimen with the clearest star/battleaxe over punching and a very bold overdate. The piece is a nice warm rose-gray in color.
731	1742-P Sou Marque, Dijon Mint -- PCGS XF45	\$275	1	Speckled steel and blue-gray toning to both sides, the reverse also with traces of iridescent reddish-gold.
158637	1767-A Sou Marque, French Colonies (1793 RF Counterstamp) -- PCGS MS63BN	\$1,950	1	...
427	1787 New York Excelsior Copper, Eagle on Globe Left, Silvered -- NGC XF45	\$27,500	1	Single finest known at NGC. Mintage unknown. This impressive piece, which has smooth medium brown surfaces with olive-gray color where silvering remains is listed on page 64 of the 2024 Guide Book. One of the more famous and popular New York issues is the Excelsior Copper with the arms of New York on the obverse and a heraldic eagle on the reverse. On the front of the coin a smaller eagle is perched atop a small globe. On one variety, the eagle's head is turned right; on this one, the head is turned left. The two varieties appear to be of similar rarity.
592	1783 John Chalmers Three pence -- NGC AU50	\$16,000	1	None Finer at NGC. This is an outstanding representative of a scarce and challenging early federal era silver type. Richly toned surfaces show iridescent steel-blue on the obverse, lighter golden-gray on the reverse. Both sides are well centered in strike with generally bold to sharp detail. PCGS Price Guide...\$21,500.
646	1796 Copper Token, Myddelton -- NGC PF63 BN	\$17,800	1	Philip Parry Price Myddelton commissioned a token from the Matthew Boulton's Soho Mint, for Myddelton's proposed British expatriate community on his plot of land in northern Kentucky. Myddelton was imprisoned by the British crown for his efforts to export skilled labor to America, ending his efforts at settlement. But the tokens are prized by numismatists today for their beauty and quality. A lustrous and well-struck autumn-brown specimen with glimpses of peripheral powder-blue. Listed on page 75 of the 2024 Guide Book. No NGC Price Guide Information Available. PCGS Price Guide...\$27,500.
723	<b>(1792) Copper Cent, Washington Born Virginia -- NGC MS63BN</b>	<b>\$59,500</b>	<b>1</b>	<b>Only 3 finer at NGC. Rare Mint State Washington Born Virginia. Here is a beautiful specimen that is glossy, yet retains soft proof-like reflectivity in the fields. Boldly struck and fairly well centered on the obverse, with no letters of the legend compromised by the rim. This is among a very small handful of superb examples of this scarce type, one that is difficult to find in grades over VF or so, and especially challenging to find with full expression of the reverse. This is immensely handsome and was selected as the plate piece for the variety in Neil Musante's Medallie Washington. In 2009 a PCGS coin in the same grade sold in auction for \$69,000. No Price Guide Information available. PCGS Price Guide in the same grade...\$69,000.</b>
732	<b>1792 Washington Cent, Famous Roman Head -- PCGS PR64 RB</b>	<b>\$110,000</b>	<b>1</b>	<b>Pop 2 with only one finer. Mintage unknown -- however it's estimated to be around 20. Considerable red mint tones accompany chestnut, rose, gold, and violet toning on this Choice proof that carries a PCGS Red and Brown designation. A dark toning spot at the back of Washington's head aids tracking the provenance of this example to the Ford Collection. There is a certain amount of speculation that accompanies the Roman Head Washington cents that were described in old catalogs as the "Naked Bust" variety. The late Walter Breen provided speculation about certain coins, and this variety was no exception. He described the portrait of Washington as an "effeminate Roman emperor" and stated that the design was the creation of John Gregory Hancock who was just 17 years old when he engraved the dies. PCGS Price Guide...\$150,000.</b>
791	1776 Continental Dollar, Pewter, EG FECIT Variety -- PCGS XF40, CMQ	\$37,500	1	Lovely pewter-gray surfaces has bold definition and every major element of this historic and popular design type is present to be admired. The level of surface preservation is above average for a Continental dollar, especially one that experienced light handling. In addition to the aforementioned original patina, both sides provide an uncommonly smooth appearance while in-hand. The EG FECIT variety is eagerly sought in its own right, of course, by those who indulge in serious pursuit of this series as well as by those who simply enjoy a "different" sort of example for their type set. This piece is attractive for the grade. PCGS Price Guide...\$43,000
795	<b>1776 Continental Dollar, Pewter, EG FECIT, Newman 3-D -- PCGS AU55</b>	<b>\$49,500</b>	<b>1</b>	<b>This example displays considerable satin luster and is well struck. DID YOU KNOW? Newman 3-D is the sole die variety in the Continental dollar series that shows the initials of its engraver. The identity of E.G. was believed by Eric P. Newman to be New York silversmith Elisha Gallaudet. However, 21st century researchers suggest a European origin for the Continental dollar, as a medal struck for collectors circa 1783 to commemorate the end of the Revolutionary War. In 2007, an NGC coin in the same grade sold in auction for \$63,250. PCGS Price Guide...\$58,500.</b>

795	1776 Continental Currency, EG FECIT Variety -- PCGS MS64 CAC	\$167,500	1	Only 4 finer at PCGS. From the Buss Collection. This essentially GEM quality example has a rich, original pewter-gray coloration over semi-reflective, flashy luster. The striking definition is quite sharp with bold, crisp reliefs on both sides. The reverse is rotated 90 degrees, and shows die cracks among the links on the chain on the reverse. There are no signs of cleaning, environmental damage, or other issues that are common on these large and popular coins. One of the classics of American numismatics, the Continental "Dollar" has been a centerpiece coin that has been popular and in strong demand from the earliest days of the hobby. Any Mint State example is VERY RARE, and a near GEM as offered here is a trophy that eludes the majority of collectors. Ranked as #10 in 100 Greatest U.S. Coins, Fourth Edition. Newman D-3, W-8460, the EG FECIT type, struck in Pewter is a Rarity-4 die pairing. In 2015, a similar coin in a slightly higher grade of PCGS MS65 sold in auction for \$258,500! PCGS Price Guide in MS64 (non-CAC)...\$175,000. In MS65...\$315,000.
PCGS #	Copper	Price	QTY	Description
1574	1814 Crosslet Large Cent -- NGC MS64 BN	\$13,500	1	Pop 3 with 3 finer at NGC. This beautiful Choice example will appeal to high quality type collectors and advanced early copper specialists alike. Smooth and glossy, the surfaces exhibit warm medium copper patina on the obverse with much of the same on the reverse. NGC Price Guide...\$20,500
2923	1969-S Double Die Lincoln Cent -- NGC MS63RB	\$47,500	1	<b>Pop 1 with none finer at NGC. 4th Finest overall. Mintage 15. This coin is mostly Red. Although the 1955 Doubled Die cents are the most famous doubled dies in the series, the 1969-S Doubled Die cents are far rarer and more elusive. DID YOU KNOW? The 1969-S Doubled Die Obverse cent was one of the few coins ever to appear on America's 'Most Wanted' list, not because it was such a desirable coin but because it was once considered to be counterfeit. By sheer coincidence, this absolutely real coin became tainted by another counterfeit -- the 1969 Doubled Die Obverse cent. PCGS Price Guide for a Red Coin in MS63 is \$65,000.</b>
PCGS #	Three Cent Pieces	Price	QTY	Description
3733	1867 Three Cent Nickel -- NGC MS67	\$3,750	1	Pop 5 with none finer. There are no examples graded finer than MS66 Plus at PCGS. This one is extremely rare. An exceptional-quality example that numbers among the very finest survivors of this circulation strike three-cent nickel issue. Greysheet...\$4000. NGC Price Guide...\$5000.
3737	1871 Three Cent Nickel -- NGC MS67	\$4,950	1	Pop 4 with none finer at NGC. Pop 2 with none finer at PCGS. A thickly frosted Superb Gem with impressive cartwheel luster on untuned silver-gay surfaces. Greysheet Bid...\$5500. NGC Price Guide...\$7000.
3743	1875 Three Cent Nickel -- NGC MS67	\$5,950	1	Pop 6 with none finer at NGC. Pop 4 with none finer at PCGS. This beautiful Condition Census example is untuned with strong frosty luster and modestly reflective fields. Introduced in 1865, the nickel three-cent piece was intended as a substitute for its silver counterpart, which disappeared from circulation in the Eastern states along with other silver coins early in the Civil War. Greysheet...\$6500. NGC Price Guide...\$8000.
3736	1870 Three-Cent Nickel -- NGC MS67	\$5,950	1	Pop 4 with none numerically finer. Flawless and beautifully tones. This 1870 three cent nickel from a mintage of 1.3 million coins is beautifully toned and flawlessly preserved. Shades of gold and powder-blue cover lustrous, unabraded surfaces. Liberty and the wreath are fully struck. Just a touch of softness occurs on the left most column in the denomination. NGC Price Guide...\$9,500.
93764	1868 Three Cent Nickel -- NGC PF67 Ultra Cameo	\$4,900	1	<b>None Finer. The 1868 proof three cent nickels are among the better-made issues in the series, and this example beautifully showcases this quality. Heavily frosted relief elements boldly contrast with the mirrored fields. A PCGS coin with same cameo designation sold in May of 2024 for \$12,000. NGC Price Guide...\$6,100.</b>
93765	1869 Three-Cent Nickel -- PCGS PR66DCAM	\$2,500	1	Mintage...600. This is an exquisite upper end Gem with watery fields supporting frosty design elements. Sharply struck, as befits the method of manufacture, with only the lightest champagne iridescence denying full brilliance. Exceptional quality in a survivor from a Proof mintage that is likely on the order of 850 to 1,100 pieces. PCGS Price Guide...\$2,500.
3769	1873 Closed 3 Three Cent Nickel -- NGC PF67	\$3,500	1	Pop 5 at NGC. None Finer. Mintage...1,100. A pleasing pastel-toned Superb Gem proof, showing powder-blue and champagne hues across reflective fields and satiny devices. The strike is sharp throughout, and no mentionable marks are seen. The 1873 proof is only known with the Closed 3 date variant. Examples are rare in Superb Gem condition. NGC Price Guide...\$4,850
3770	1874 Three Cent Nickel -- NGC PF67	\$3,700	1	Pop 3 none numerically finer. Mintage 700. Attractively toned. An outstanding Superb Gem that boasts a needle-sharp strike and essentially immaculate preservation. Medium peach-gold, lilac-red, and powder-blue patina further ensures the eye appeal. Numerically unsurpassed at either NGC or PCGS. NGC Price Guide...\$5500.
3782	1886 Three-Cent Nickel -- NGC PF68	\$3,900	1	Pop 2 with 2 finer at NGC. A satiny Superb Gem of the first water, a glittering, lustrous coin with lightly frosted motifs and satiny, modestly reflective fields. A thin coating of natural patina has accumulated over both sides, the result of careful storage over the years. Boldly struck with every tiny nuance of Longacre's design present and accounted for. This coin is just a hair's breadth away from perfection! In 2005, a PCGS coin with the same grade sold in auction for \$10,925. NGC Price Guide...\$6250.
PCGS #	Nickels (All Varieties)	Price	QTY	Description
3791	1867 Rays Shield Nickel -- NGC MS66	\$6,900	1	The 1867 Rays Shield nickel is scarcer in high grade than its No Rays counterpart. This Premium Gem example displays satiny silver luster and excellent surface preservation. NGC Price Guide...\$9,000
83817	1866 Rays Shield Nickel -- NGC PF67 Cameo	\$12,500	1	None finer. Here is the first year of the Shield nickel type. Rays Shield nickels were only struck in 1866 and part of 1867. Proofs from 1867 are rarely seen in PF67 Cameo. Well Struck and excellent Cameo contrast. NGC Price Guide...\$15,000.

3825	1871 Shield Nickel -- NGC PF67	\$3,950	1	Pop 5. None Finer. A virtually pristine condition rarity that will appeal to quality conscious specimen type and date collectors. Lightly toned in iridescent champagne-gold, more so on the obverse than reverse. Both sides are fully struck with a highly reflective finish. Exquisite! NGC Price Guide...\$4,500.
3825	1871 Shield Nickel -- NGC PF67 Cameo	\$4,950	1	None Finer. Dreamy bright silver surfaces allow ready appreciation of bold field to device contrast. In 2007 a comparable NGC Coin sold in auction for \$12,075. NGC Price Guide...\$6,150.
83826	1872 Shield Nickel -- NGC PF67 Cameo	\$4,250	1	Pop 4 with only 1 finer in Cameo. Mintage...950. Outstanding quality, even at this lofty state of preservation, this coin can be called PQ. Brilliant surfaces are devoid of any significant line or tick of any kind, nor do the surfaces show any discolorations or toning; this Proof-67 Cameo Gem is as fresh and beautiful as the day it came off the dies. Sharply struck design elements stand out in frosted contrast to the sleek mirrored brilliance of the fields and have a bold cameo effect. In 2011, an NGC in the same grade and designation sold in auction for \$7,475. NGC Price Guide...\$3500.
<b>3826</b>	<b>1872 Shield Nickel -- NGC PF67+</b>	<b>\$3,950</b>	<b>1</b>	<b>None Finer. This high-end Superb Gem displays modestly reflective fields with iridescent toning and sharp definition. No bothersome marks are seen. The singular proof obverse die shows minor die doubling. No NGC Price Guide information for this grade. PCGS Price Guide in MS67Plus...\$7,500.</b>
3830	1876 Shield Nickel -- NGC PF67	\$2,700	1	Pop 8 with 2 finer at NGC. Soft, multicolored iridescent toning adorns both sides of this fully impressed, pristine specimen. This is an exceptionally well preserved and attractive survivor from an estimated mintage of 1,500 to 2,000 Proofs, most examples of which are in lower grades with limited eye appeal. NGC Price Guide...\$2450.
83831	1877 Shield Nickel -- NGC PF66 Cameo	\$4,250	1	Only 10 numerically finer. Proof-Only Key Date. The 1877 boasts a low mintage of only 900 pieces, all being struck in proof format. This Premium Gem specimen is tinted in soft golden hues and combines subtly frosted devices with mirrored fields to present a noticeable, if not stark, cameo finish. NGC Price Guide...\$5250.
<b>3917</b>	<b>1913-S Buffalo Nickel, Type 1 -- NGC MS67+</b>	<b>\$6,500</b>	<b>2</b>	<b>Pop 14 with only 4 finer. Beautiful toning seen on both sides. Soft satin luster, smooth surfaces and a sharply executed strike complete the package for this truly impressive piece. A rare offering for a first-year Buffalo nickel issue that is usually very difficult to acquire as a Superb Gem, and a particularly important find for NGC Set Registry participants. NGC Price Guide...\$18,500. Check out the Historical APR Record from 2021 for a PCGS coin...\$16,800.</b>
3917	1913-S Buffalo Nickel, Type 1 -- NGC MS68	\$16,500	1	Pop 4 and tied for finest known. With none finer at either service. The design elements are sharply detailed and the impeccably preserved, textured surfaces radiate vibrant mint luster. CDN Greysheet...\$16,000. CDN Collectors Price Guide...\$19,200. PCGS Price Guide...\$60,000!
3923	1913-S Buffalo Nickel, Type 2 -- NGC MS67	\$17,500	1	Pop 5 in MS67. Only one finer in MS67 Plus. Outstanding technical quality and eye appeal for the rarest of the 1913-dated Buffalo nickel issues. Smooth and lustrous, the surfaces are further enhanced by delicate toning in iridescent champagne-pink. The strike is exceptional for this challenging issue. NGC Price Guide...\$22,500. <b>Check out the Historical APR Record from 2013 for \$49,938.</b>
3937	1918 Buffalo Nickel -- NGC MS67	\$13,500	1	Pop 8 with one finer in MS67 plus at NGC. A lovely example toned in soft pastel hues of rose, apricot and powder blue over bright and lustrous surfaces. The strike is bold throughout with crisp peripheral lettering. NGC Price Guide...\$21,500. <b>Check out the Historical 2006 APR Record for a comparable PCGS 1918 Buffalo Nickel...\$40,825.</b>
3943	1919-S Buffalo Nickel -- NGC MS66	\$49,500	1	Pop 3 None Finer at NGC. The uniformly razor sharp strike on both sides of this coin set it apart from the vast majority of Mint State 1919-S nickels extant. Also of note is the surface preservation, which is nothing short of extraordinary. Full satin luster is retained, the appearance smooth, vibrant and further enhanced by lovely lemon yellow and pale rose iridescence. Easily among the nicest examples of this challenging issue. NGC Price Guide...\$65,000.
3948	1921-S Buffalo Nickel -- NGC MS66	\$15,750	1	The 1921-S Buffalo nickel is a conditionally challenging date in Gem or better grades, and Premium Gem coins such as the present are universally rare, with finer pieces being nearly uncollectible. This piece displays luminous original mint luster cast in delicate champagne iridescence. NGC Price Guide...\$22,000. Check out the Historical APR Record from 2005 for a PCGS coin...\$51,750.
3955	1925-D Buffalo Nickel -- NGC MS66+	\$8,950	1	Pop 2 with none finer at NGC pearly and intensely lustrous Gem struck midway through the Roaring Twenties. Subtle hints of golden iridescence are backlit by soft satin texture across the surfaces. Virtually pristine and not surprising since this piece ranks among the very finest 1925-D nickels seen by NGC, PCGS and CAC. NGC Price Guide in MS66 (Non-Plus)...\$12,000.
3962	1927-S Buffalo Nickel -- NGC MS65	\$6,950	1	Only 10 finer. Condition Rarity. This sharply defined example is untuned apart from the lightest suggestions of champagne-gold iridescence that are more pronounced on the reverse. Surfaces are lustrous, frosty, and uncommonly free of even trivial distractions. NGC Price Guide...\$13,000. Check out the Historical APR Record from 2006 for a PCGS Coin...\$24,150.
3965	1928-S Buffalo Nickel -- NGC MS66	\$7,950	1	Pop 12 with only 3 finer at PCGS. Richly toned. This Premium Gem 1928-S is impressively well struck, with a rounded horn and complete central details. This San Francisco issue is rarely offered as fine as MS66. The current coin displays luminous surfaces with vivid multicolor toning throughout. Only a handful of higher-grade pieces are known. NGC Price Guide...\$9,750. Check out the Historical APR Record from 2005 for a PCGS coin...\$43,125.
3968	1929-S Buffalo Nickel -- NGC MS67	\$7,950	2	Pop 12 with None Finer at either service -- Exceptionally smooth satin surfaces border on pristine. Sharply struck and further enhanced with wisps of attractive toning -- it's difficult to imagine a more desirable example of this issue. NGC Price Guide...\$10,000. CDN Greysheet...\$9,500. CDN Retail Price Guide...\$11,900. Check out the Historical APR Record from 2006 for a PCGS...\$24,150.

3990	1913 Buffalo Nickel, Type 2 -- NGC PF67	\$4,250	1	A radiant example of this transitional type with bright, satiny luster blanketing the surfaces on each side. The surfaces are marbled with vibrant honey-gold colorations, somewhat deeper on the reverse, complementing the bold and untouched design elements throughout. From a mintage of 1,514 pieces, survivors of which are the rarest Proof Buffalo nickels after only those from the 1916 issue. In 2017, a PCGS coin with a CAC sticker in the same grade sold in auction for \$19,975. NGC Price Guide...\$5,500.
<b>PCGS #</b>	<b>Half Dimes (All Varieties)</b>	<b>Price</b>	<b>QTY</b>	<b>Description</b>
4276	1829 Capped Bust Half Dime -- NGC MS66	\$2,950	1	Only 7 finer at NGC. A lovely and conditionally rare example of this historic half dime issue, the first half dime struck since 1805 and the first issue in the Capped Bust series, thus the 1829 is very popular for type purposes. The luster on this coin is full with modest semi-reflective qualities in the obverse field. That side of the coin also exhibits mottled olive-russet peripheral toning, the balance of the surfaces lightly patinated in antique silver. A fully struck, expertly preserved Gem that is earmarked for inclusion in a high grade type set. In 2006, A PCGS coin with the same grade sold in auction for \$5,750. NGC Price Guide...\$3,650.
4281	1834 Capped Bust Half Dime -- NGC MS65	\$2,590	1	Light, even, golden iridescence flows over the obverse of this satiny Gem, the reverse exhibits similar colorations mixed with some sapphire-blue highlights. Sharp-to-full in strike, and free of worrisome abrasions, this is certainly a lovely example of the type, issue and individual die pairing. In 2008, an NGC coin with the same grade sold in auction for \$6325. NGC Price Guide...\$2,750.
4311	1837/1837 LG DT Seated Liberty Half Dime, VP-001 -- NGC MS66	\$4,175	1	Only 12 finer. The date digits are heavily repunched on this first-year Seated half dime. Each side remains nearly flawless and strike detail is razor-sharp. The obverse is beautifully toned in shades of blue, gold, and violet, while the reverse is largely brilliant and frosty. NGC Price Guide...\$4,550
4337	1847 Seated Liberty Half Dime -- NGC MS67	\$3,900	1	Only 1 Finer between both services and it's in an NGC PF68 holder. A hint of peripheral tan-gold toning accompanies otherwise brilliant surfaces. This well-struck and semiprooflike Stars Obverse Superb Gem is remarkably devoid of detractors. Virtually unimprovable, and an excellent candidate for an advanced Seated type set. NGC Price Guide...\$5,400.
4356	1853 Seated Liberty Half Dime With Arrows -- PCGS MS67	\$6,950	1	Pop 11 with 6 finer. A richly original Superb Gem with particularly dramatic reverse toning in mottled copper-red, steely-charcoal and deep olive colors. The brighter reverse is brilliant in the centers with splashes of similar colors around the periphery. Both sides are sharply struck with a full endowment of smooth, billowy mint luster. PCGS Price Guide...\$9,000
4359	1854-O Seated Liberty Half Dime with Arrows -- PCGS MS65 CAC	\$6,250	1	Pop 9 with 4 finer. Handsome pewter and steel-olive patina blankets both sides with rose and powder blue iridescence shining forth nicely under direct lighting. Both sides are sharply struck with full, satiny mint luster. An eagerly sought subtype of the Liberty Seated half dime, the Arrows design of 1853 to 1855 is particularly popular with type collectors when found in the finest Mint State grades, as here. This Gem 1854-O is ideally suited for inclusion in a high quality mintmarked type set. PCGS Price Guide in MS65 (Non-CAC)...\$4,250. In MS66...\$9,000.
4365	1857 Seated Liberty Half Dime -- NGC MS66+	\$1,300	1	An essentially brilliant finish overlays the shimmering, lustrous surfaces of this remarkable premium Gem example. Sharply struck, with faint clash marks seen on the reverse, and clean, mark-free surfaces that are essentially pristine. An ideal type coin selection. NGC Price Guide...\$2,700.
<b>84437</b>	<b>1858 Seated Liberty Half Dime -- NGC PF65 Cameo</b>	<b>\$3,500</b>	<b>1</b>	<b>Pop 2 one finer at NGC. Attractive toning. In 2023, a comparable NGC coin sold in auction for \$4,560. NGC Price Guide...\$5,750.</b>

4477	1805 Berries Dime -- NGC MS65	\$33,500	1	Pop 17 with nine finer. This vividly toned Gem exhibits gorgeous cobalt blue, antique gold and salmon-pink undertones to dominant steely-charcoal and copper-rose patina. The major design elements are sharply to fully defined, and the borders have complete denticulation in all areas save for along the upper left reverse. The surfaces are nice for the assigned grade with exceptional luster in a softly frosted texture. In 2013, a comparable PCGS coin sold in Auction for \$47,000. NGC Price Guide...\$46,000.
4488	1814 Capped Bust Dime, Large Date -- NGC MS65	\$8,950	1	This attractive example exhibits full, soft, satiny luster beneath an overlay of warm toning. The dominant patina is smoky sandy-gray, accented by intermingled blushes of antique gold, deep olive, and champagne-pink. Sharp definition in and around the centers. The preservation is superior with smooth-looking surfaces that readily uphold the MS-65 grade. In 2016, a comparable PCGS coin of the same grade sold in auction for \$16,450. NGC Price guide...\$15,500.
<b>4504</b>	<b>1827 Bust Dime -- NGC MS65</b>	<b>\$7,950</b>	<b>1</b>	<b>Only 6 Finer at NGC. Attractive light satiny toned luster. In 2022 a CAC stickered coin sold in auction for \$24,000. CDN Retail Price Guide...\$9,750.</b>
<b>38848</b>	<b>1830/29 Bust Dime -- PCGS MS65 CAC</b>	<b>\$14,000</b>	<b>1</b>	<b>Only 4 numerically finer at PCGS. Clearly one of the FINEST graded examples of this overdate Capped Bust dime. While fairly common overall, it is extremely rare in MS65 or higher grades. Indeed, PCGS and NGC have graded at most nine examples in MS65 or finer grades. In 1830, the mint pressed into use an unused 1829 obverse die and repunched the last two digits with a 30. The underlying digits are faint, especially on later die state pieces like this one. In 2014, a Comparable PCGS Coin with a CAC sticker sold for \$21,000. PCGS Price Guide in MS65 (Non-CAC)...\$15,000. in MS66...\$25,000.</b>
4520	1831 Bust Dime -- NGC MS65	\$4,900	1	A colorful Gem. The peach-gold obverse center is encompassed by a plum-red and steel-blue border. The reverse displays a golden-brown margin and the strike is sharp. NGC Price Guide...\$9,550.

4523	1833 Bust Dime, Last 3 High -- NGC MS64	\$2,600	1	Autumn-gold and pearl-gray adorn this lustrous and needle-sharp near-Gem. A popular Guide Book variety where the final 3 in the date is entered distant from the dentils, a feature shared with the very scarce JR-7. NGC Price Guide for any variety...\$3,500.
4527	1835 Bust Dime -- NGC MS65	\$4,950	1	A hint of wheat-gold toning graces the borders of this otherwise brilliant Gem. The sharply struck surfaces teem with luster. JR-1 is an available variety that can often be attributed at a glance by its radial die crack through the A in STATES. Greysheet Bid...\$5,500.
4571	1839 Seated Liberty Dime, No Drapery, Stars Obverse -- NGC MS67	\$7,900	1	Pop 11 with 9 finer. Stunning iridescent toning in salmon-pink, medium rose and reddish-orange colors are seen toward the borders on both sides of this lovely example. The surfaces are intensely lustrous, and display a lively satin to softly frosted finish. Razor sharp striking detail and expert surface preservation are also notable. In 2005, an NGC coin of the same grade sold in auction for \$16,100. NGC Price Guide...\$12,000.
4603	1853 Seated Liberty Dime With Arrows -- NGC MS67	\$6,250	1	Pop 12 with 5 finer at NGC. Virtually pristine surfaces. Both sides of this piece are silky smooth with full, softly frosted luster. Iridescent toning in reddish-apricot, powder blue, and pale rose adds to the appeal, as does razor sharp to full striking detail. NGC Price Guide...\$12,000.
4609	1856 Seated Liberty Dime, Small Date -- NGC MS66+	\$4,950	1	Pop 1 with one finer at NGC. Exceptional surface preservation for the more frequently encountered date logotype of the circulation strike 1856 dime. Smooth and satiny, both sides are brilliant apart from the lightest pale silver and champagne-gold tinting. Fully struck with eye appeal to spare, even the finest collection of Liberty Seated coinage would benefit from inclusion of this premium quality Gem. NGC Price Guide...\$5,625.
4633	1861 Seated Liberty Dime -- NGC MS66	\$2,500	1	Only 2 Numerically Finer at NGC and only one at PCGS. A nearly brilliant example of this popular Civil War issue. Lustrous and beautifully preserved with a bold strike. NGC Price Guide...\$3,250.
4651	1870 Seated Liberty Dime -- NGC MS66	\$5,950	1	Pop 4 with none finer. Satiny on both sides, with a light coating of pastel gray-golden toning. The strike is sharp overall including Liberty's hair and the leaves on the wreath on the reverse. Outstanding surface quality with no mentionable distractions seen even when studied with a loupe. One of the four MS-66 coins certified by NGC of this more difficult date, with none finer. With a mintage of 470,500 pieces for the year, dismal survival rates ensued and finding more than a handful may require decades. Gems like this are caviar for the specialist. NGC Price Guide...\$7500.
4688	1880 Seated Liberty Dime -- NGC MS68	\$9,750	1	Pop 5 with none finer. Splendid ocean-blue, red, and gold toning embrace this lustrous and immaculate Seated dime. The deepest shades of color are located near the rims. Likely due to large-scale silver dollar production, the business strike mintage of the 1880 dime was only 36,000 pieces. Apparently, Philadelphia dealers at the time were aware of the issue's scarcity, and set aside examples in Mint State. Nonetheless, the date is rarely encountered in the present quality. NGC Price Guide...\$12,500
4707	1891-O Seated Liberty Dime -- PCGS MS66	\$1,850	1	Pop 16 with 5 finer. An original and pleasingly toned Gem of the final Seated Liberty dime issued. Well struck and lovingly preserved since the time of mintage, this satiny, delicately toned MS-66 ranks high in the Population Report, with just a handful finer. PCGS Price Guide...\$3000.
4780	1883 Seated Liberty Dime -- PCGS PR64 CAC	\$700	1	Old Holder with Medium attractive Tones. Price Guide in PR65...\$1100
4809	1896 Barber Dime -- NGC MS67	\$3,750	1	Pop 1 with none finer at NGC. Nice light tones on both obverse and reverse.
4820	1899-S Barber Dime -- PCGS MS65	\$2,150	1	A splendid specimen, an absolute Gem example of the San Francisco Barber dime from 1899.

5454	1861 Seated Liberty Quarter -- PCGS MS66	\$4,950	1	Pop 13 with 7 finer at PCGS. The 1861 is a common date among No Motto issues, although examples become conditionally rare above the Gem grade level, where the current coin resides. In 2020a PCGS coin of the same grade sold for \$10,200. PCGS price Guide...\$6,500.
5510	1878-S Seated Liberty Quarter -- NGC MS65	\$10,500	1	Pop 5 with none numerically finer. This Gem example is sharply struck and crisply defined with lustrous, bluish-gray surfaces and attractive olive overtones. There are no mentionable marks or abrasions to be seen on the smooth and appealing fields or devices. A diagnostic die line within the dentils above and to the left of star 8 helps identify authentic examples of this late-series, low-mintage San Francisco issue. The 1878-S is scarce to the point that deceptive counterfeits exist, although the present coin clearly confirms as authentic by NGC and by die characteristics. NGC Price Guide...\$15,500. Check out the Historical APR Record from 2013 for a PCGS coin...\$18,800

5574	1873 Arrows Seated Quarter -- NGC PF66	\$7,500	1	Pop 10 with only 5 finer at NGC. Glassy mirrors are deep, bold, flashy, and offer great reflectivity under a rich, original patina. The devices are sharply struck with crisp definition throughout and the fields, as expected for the assigned grade level are virtually flawless. Only 540 Proofs were struck for collectors, and this one ranks near the higher end of the grading scale at NGC, with just a handful graded higher. In 2005, an NGC coin of the same grade sold in auction for \$12,650. NGC Price Guide...\$10,000.
5575	1874 Arrows Seated Liberty Quarter -- NGC PF66	\$6,900	1	Only 6 Finer. This is a richly toned and needle-sharp Premium Gem. A 700-piece proof mintage makes the 1874 Arrows quarter available in most proof grades through the Gem level. Finer examples are scarce, and fewer than a dozen coins exceed the PR66 designation. NGC Price Guide...\$9250
5495	1874-S Arrows Seated Quarter -- PCGS MS66	\$3,550	1	Only 5 finer at PCGS. Outstanding, High-End Type Coin. Forest-green and tobacco-brown toning accompanies the borders, while the fields and motifs are principally brilliant. A crisply struck, frosty, and thoroughly lustrous Premium Gem that boasts superior eye appeal. PCGS Price Guide...\$4,250.
5584	1883 Seated Liberty Quarter -- NGC PF64	\$950	1	Old Holder. Rich colorful tones.
5608	1894-O Barber Quarter -- PCGS MS66	\$5,750	1	Tied for Finest at PCGS. Smooth, unabraded surfaces are aglow with frosty mint luster. The obverse displays deep violet, teal, and mint-green toning around the margins, while the center and much of the reverse are silver-gray. The strike is excellent. This New Orleans issue is an undeniable rarity that is well-preserved, and is almost unknown finer. PCGS Price Guide...\$7,250.
5617	1897-O Barber Quarter -- PCGS MS65	\$4,050	1	A beautiful Gem example of this better New Orleans issue, showing bold relief detail in all areas except the eagle's right (facing) talons and the fletchings. Both sides display satiny champagne-tinged luster and are free of major abrasions. The 1897-O is rare this well-preserved and highly sought-after. PCGS Price Guide...\$7,250.
5632	1902-O Barber Quarter -- PCGS MS66	\$6,250	1	Pop 8 with 2 finer at PCGS. A beautifully preserved Premium Gem example of this New Orleans issue, showing ivory luster with deeper russet hues in the margins. Devoid of bothersome abrasions and well struck with outstanding eye appeal. PCGS Price Guide...\$8,750.
5656	1909-S Barber Quarter -- NGC MS67	\$9,500	1	Pop 4 with none finer. This San Francisco issue is a major rarity in MS67, and no finer pieces are known. This piece is brilliant and pristine, showing satiny luster that rolls through well defined central devices. An ideal Registry coin. NGC Price Guide...\$12,000.
5715	1917 Standing Liberty Quarter, Type II-- NGC MS67 FH	\$7,900	1	None Finer at NGC. Only one finer at PCGS. this enchanting Superb Gem displays smooth, softly frosted luster. Razor sharp striking detail enhances the appeal. The coin is among the very finest seen by NGC, and is an outstanding representative of the Type II Standing Liberty quarter. NGC Price Guide...\$9,500.
5722	1918-D Standing Liberty Quarter -- NGC MS66 FH	\$8,250	1	Pop 16 with none numerically finer at NGC. The 1918-D Standing Liberty quarter is a challenging date in high grade Full Head. This Premium Gem combines the Full Head strike with satiny luster and delicate gold, champagne, olive, and russet toning. NGC Price Guide...\$13,000.
5726	1918/7-S Quarter -- NGC MS67	\$137,500	1	The Sole Finest Overdate Example Known. One glance at this piece and the astute collector will marvel. The luster is remarkably thick and frosty for an issue that often comes dull and satiny, with light champagne toning that accents the margins. The strike is also impressive: Liberty's head detail is far above average for the issue with the three sprigs showing plainly, and the shield shows at least partial definition on all rivets and lines. The central torso and the reverse eagle are also far better defined than is typical of the 1918/7-S. The eye appeal generated by the MS67-quality surfaces is stunning. No issue in the entire Standing Liberty quarter series is as much of a rarity in high grade as the 1918/7-S. The overdate was not discovered until nearly two decades after its creation, by which time collectors' best chance of finding an example was to pluck a worn piece from circulation. Bank rolls and other accumulations of Mint State 1918-S quarters yielded extremely limited results when searched for the overdate. By the late 1940s, the 1918/7-S was an established series key. PCGS Price Guide...\$225,000. NGC Price Guide...\$145,000.
5730	1919-D Standing Liberty Quarter -- NGC MS66	\$6,250	1	This Gem 1919-D quarter offers lightly toned surfaces, still bright and radiant, with intense satiny mint frost and immaculate preservation on both sides. This example is one of the finest-graded at NGC among those lacking Full Head status. NGC Price Guide...\$7,600.
5737	1920-D Standing Liberty Quarter -- NGC MS65+ FH	\$9,500	1	Only 10 numerically finer at NGC. This delightful Gem exhibits sharply detailed design elements in most areas, with Full Head definition. The well-preserved brilliant surfaces radiate vibrant mint luster, with outstanding eye appeal. NGC Price Guide in MS65FH (Non-Plus)...\$8900. In MS66FH...\$18,000.
5763	1927-D Standing Liberty Quarter -- NGC MS66	\$4,950	1	Only 4 finer at NGC. Blazing White! The surfaces display outstanding quality and the luster dances through the nuances of the fields, folds and feathers. In 2010, a PCGS coin in the same grade sold for \$13,800. NGC Price Guide...\$6,800.
5779	1930 Standing Liberty Quarter -- NGC MS67FH	\$3,250	2	Blazing white! Only one numerically finer between both services. A conditionally rare specimen from the final year of the Standing Liberty quarter series. NGC Price Guide...\$3500.
5975	1936 Washington Quarter -- NGC PF67	\$4,900	1	Only 1 numerically finer at NGC. Small amounts of scattered russet and golden iridescence accent the mostly brilliant surfaces of this Superb Gem. The devices are well struck and pair nicely with reflective, watery fields on both sides. From the first year of Proof production in the denomination since 1915. In 2004, an NGC coin with the same date and grade sold in auction for \$10,925. NGC Price Guide...\$8,650
5975	1936 Washington Quarter -- NGC PF67+	\$5,750	1	Only one numerically finer at NGC. This one is Blazing White. Although the Washington quarter debuted in 1932, the new design was not struck in proof format until 1936 when denominational proof sets were reintroduced. In 2002, a Proof (Non-Plus) NGC Coin sold in auction for \$10,925. NGC Price Guide for a Non-Plus Coin...\$8,450.

5975	1936 Washington Quarter -- NGC PF67+	\$5,750	1	Only one numerically finer at NGC. This one is nicely toned around the rim. In 2002, a Proof (Non-Plus) NGC Coin sold in auction for \$10,925. This high-end Superb Gem is an excellent Registry candidate. NGC Price Guide for a non-Plus Coin...\$8,450.

6155	1829/1827 Bust Half Dollar -- NGC MS65	\$17,500	1	Pop 1 with two numerically finer at NGC. A handsome piece, the obverse is warmly toned in sandy-gray with intermingled steel-olive highlights at the border. The reverse is also pleasingly toned, albeit in lighter, more mottled iridescence in antique silver and sandy-apricot. Crisply impressed, the detail is razor sharp to full in virtually areas. Luster is satiny and smooth. No NGC Price Guide Information available. PCGS Price Guide...\$27,500. NGC Price Guide...\$18,500.
6243	1843 Seated Liberty Half Dollar -- NGC MS65	\$6,500	1	Pop 4 with only one finer among all varieties. The 1843 half eagle dollar is rare at the Gem level regardless of variety. This variety represents the only use of this shattered reverse die, which shows a network of heavy die cracks that is reminiscent of a spider's web. The obverse die is also cracked around the periphery. This coin is featured on the cover of the reference book -- A Register of Liberty Seated Half Dollar Varieties, Volume V. The present coin displays luminous, frosty mint luster and delicate champagne tinting. The strike is sharp, and each side showcases outstanding preservation. NGC Price Guide...\$9,375.
6268	1852 Seated Liberty Half Dollar -- NGC MS66+	\$13,000	1	Only 2 numerically finer. Both in MS67. This remarkable GEM is the second FINEST graded example for this lower mintage date. Only 77,130 were struck for commerce and precious few were saved at the time of issue. There are just two graded higher at NGC, and there is nothing finer than MS66 at PCGS. Distinctive splashes of gold on the obverse will serve to identify this GEM beauty. Sharply struck, the details exquisitely executed and enlivened by bold satiny brilliance. The eye appeal is excellent in every way. NGC Price Guide in MS66...\$17,500. In MS67...\$30,000. Greysheet...\$12,500.
6275	1853 Liberty Seated Half Dollar, Arrows & Rays -- NGC MS65	\$19,000	1	Pop 17 with 8 numerically finer at NGC. This brilliant Gem remains as bright and lustrous as the day it was struck. Well struck with both sides showing sharp definition to the focal features of the design. Technically and aesthetically impressive in all regards, this coin is one of the finest certified for the type and is a delight to behold. In 2007, a PCGS coin in the same grade sold in auction for \$27,600. NGC Price Guide...\$23,500.
6279	1854 Arrows Seated Half Dollar, Mint Error. Obv. Struck Thru -- NGC MS-66	\$10,500	1	Pop 2 with only 2 finer at NGC. A Gem example of this two year only type. Sharply struck and lustrous, both sides have a delicate russet-olive tone. The obverse shows a nearly circular depression in the lower left obverse field by star 13 and Liberty's foot, where something came between the die and the planchet creating the struck through area noted by NGC. No NGC Price Guide Information available. NGC Price Guide (Non-Error)...\$15,500. Check out this historical APR record sale price for a PCGS coin (Non-Error) from 2008...\$29,900.

6355	1877 Liberty Seated Half Dollar, Type II Reverse -- NGC MS66	\$4,900	1	Pop 10 with 11 finer at NGC. Highly lustrous in a satin finish, this fully brilliant premium Gem Uncirculated example also delivers sharp definition throughout the design. It is an ideal candidate to represent the type, issue or WB number in a high quality collection. NGC Price Guide...\$6,200.
6357	1877-S Seated Half Dollar, Type 2 Reverse (Very Small S) -- NGC MS65	\$2,600	1	This pretty Gem is toned in gently mottled pinkish-silver, olive-apricot and powder blue iridescence. Crisply impressed and fully lustrous, both high grade type collectors and advanced Liberty Seated half dollar enthusiasts will find much to admire in this 1877-S. In 2010, an NGC coin of the same date sold in auction for \$6325. NGC Price Guide...\$3500.
6357	1877-S Seated Half Dollar, Type 2 Reverse (Very Small S) -- NGC MS65	\$2,600	1	Same coins as above -- but blast white. NGC Price Guide...\$3500.
6361	1879 Liberty Seated Half Dollar, Type II Reverse -- PCGS MS66	\$4,600	1	A key date half dollar issue that is nicely toned with the boldest color arcing along the upper left reverse border. Frosty and sharply struck with expectably smooth surfaces at the assigned grade level. PCGS Price Guide...\$6,000.
6361	1879 Liberty Seated Half Dollar, Type II Reverse NGC MS66	\$4,600	1	Fully lustrous and essentially pristine with a crisp strike throughout. Both sides display a bright, untuned appearance. The advent of the Morgan dollar tied up Mint resources, and Seated half coinage was reduced to token levels until 1891. The 1879 non-Proof mintage was only 4,800 pieces, though dealers with connections to the Philadelphia Mint are said to have secured a few hundred Uncirculated examples. This might be one of those? 6435	1874 Arrows Seated Half Dollar -- NGC PF65 (White)	\$7,750	1	Attractive and desirable in all regards, this impressive specimen offers rare Gem preservation in a Proof of the challenging Arrows half dollar type of 1873 to 1874. Warmly toned in dusky sandy-silver, both sides are fully struck with some semblance of a cameo finish evident as the coin dips into a light. Back in 1995 a PCGS coin sold in auction for \$15,950. NGC. Price Guide...\$10,500.
6435	1874 Arrows Seated Half Dollar -- NGC PF65 (Toned)	\$7,750	1	Only nine finer. A beautiful Arrows type coin in proof format. Exquisite toning that flows to gorgeous silvery centers on both sides of the coin. NGC Price Guide...\$10,500.

6426	1868 Liberty Seated Half Dollar -- PCGS PR66	\$4,800	1	Pop 3 with none finer. Mintage is only 600. Old Green Holder. Deep magenta surfaces come alive with bold neon yellow and blue iridescence when viewed under a lamp. Strong eye appeal enhanced by a needle sharp strike, showcasing every detail in the drapery, hair, and feathers within the ever-popular Seated Liberty design. PCGS Price Guide...\$5,260.
6370	1888 Seated Half Dollar -- NGC MS67	\$10,500	1	None numerically finer. Attractively toned. This MS67 is a splendid 1888 coin that retains its naturally acquired colorful toning. Shades of deep-blue and tan-gold grace the sharply struck, frosted surfaces. Late-series Seated half dollars between 1879 and 1890 all have low mintages. The various mints were preoccupied striking millions of Morgan dollars. Dealers and speculators promoted the low mintages and many examples survive, although Superb Gem examples are rare and highly prized. In 2008, a PCGS coin with the same grade sold in auction for \$20,700. PCGS Price Guide...\$20,000.
6444	1883 Seated Liberty Half Dollar -- PCGS PR63 CAC	\$1,300	1	Old holder. Brilliant and White. PCGS Price Guide in PR63 Non-CAC...\$1700. In PR64...\$2,000.
6480	1898 Barber Half Dollar -- NGC MS66	\$4,500	1	Tied for finest at NGC. A lustrous frosty Gem with splashes of apricot over pearly silver, particularly on the obverse. Sharply struck and satiny smooth, this example is nearly pristine. NGC Price Guide...\$6,000.
6486	1900 Barber Half Dollar -- NGC MS66	\$3,900	1	Pop 10 with only 1 numerically finer. A popular date in the Barber half dollar series, struck in the roll-over year of 1900 and appealing to type collectors. Midnight-blue and light champagne colors dominate each side, with the obverse almost entirely enveloped in the darker color and the reverse mostly champagne. Overall strike sharpness is outstanding for the issue, especially on the eagle's talons and shield. In 2013, an NGC CAC coin in the same grade sold in auction for \$21,738. NGC Price Guide...\$5000.
6490	1901-O Barber Half Dollar -- NGC MS66	\$19,500	1	Pop 4 with none finer. A conditionally challenged Barber half dollar issue. Brightly lustrous, as well, with subtle semi-reflective qualities to an otherwise satiny mint finish. This present example has superior surface preservation, both sides exceptionally smooth and blemish-free to support the rare MS-66 grade from NGC. Brightly lustrous, as well, with subtle semi-reflective qualities to an otherwise satiny mint finish. In 2009, a PCGS coin of the same grade with a CAC sticker sold in auction for \$23,000. Grey Sheet Bid...\$21,500.
6502	1905-O Barber Half Dollar -- PCGS MS65	\$3,950	1	Seldom do Mint State survivors of this challenging New Orleans Mint issue possess the above average striking quality and superior surface preservation of this notable condition rarity. The 1905-O is among the more readily identifiable key date issues in the Barber half dollar series due to a mintage of 505,000 coins. PCGS Price Guide...\$4,500.
6507	1906-S Barber Half Dollar -- NGC MS65	\$3,000	1	Only 5 numerically finer at NGC. In 1996, a PCGS coin of the same grade sold in auction for \$7,150. Nice Medium Tones. NGC Price Guide...\$3,500.
6530	1914 Barber Half Dollar -- NGC MS65	\$5,250	1	Pop 11 with only one finer. From a small mintage of 124,230 pieces, the 1914 Barber half dollar is an elusive issue in all grades. The 1914 is definitely rare at the MS65 grade level, and finer coins are virtually unobtainable. NGC Price Guide...\$6500.
6568	1916-S Walking Liberty Half Dollar -- NGC MS66	\$22,500	1	Only two numerically finer -- one at PCGS and the other at NGC. This Premium Gem example displays a sharp strike and radiant, frosty mint luster, with light toning. The 1916-S is the scarcest of the first-year Walking Liberty half dollars, both overall and in high grade. The Philadelphia and Denver issues are often available in MS66, albeit for a price, but the San Francisco coin is a true rarity in this grade. Moreover, finer examples are prohibitively rare and unattainable for most collectors. In 2020, a CAC coin sold in auction for \$60,000. Greysheet Bid...\$31,000.
6575	1918-D Walking Liberty Half Dollar -- PCGS MS64 or NGC MS64+	\$6,000	1	Lightly toned in iridescent gold on portions of the obverse, this lustrous and smooth-looking example is very close to a full Gem rating. The 1918-D is more difficult to locate in Mint State than such other issues as the 1917-D Obverse Mintmark, 1917-S Reverse Mintmark, 1918-S and 1927-S. Given the paucity of Gems in today's market, this premium Choice example represents excellent value. PCGS Price Guide in MS64 Plus...\$6,500. In MS65...\$40,000. One sold in NGC MS64 back in 2016 for \$15,294.
6576	1918-S Walking Liberty Half Dollar -- NGC MS65, CMQ	\$9,500	1	Only 3 Finer. Uncommonly well defined with an overall smooth appearance, this is an impressively struck and conditionally rare 1918-S half dollar. Both sides are visually appealing with a brilliant-white appearance to intense satin to softly frosted luster. In 2013 a PCGS coin of the same date and grade sold in auction for...\$21,000. NGC Price Guide...\$14,000.
6576	1918-S Walking Liberty Half Dollar -- NGC MS65	\$9,500	1	Only 3 Finer. This early San Francisco issue mostly appears in MS64 and lower grades, with Gem examples seldom seen and finer coins rare. This piece displays iridescent light golden toning and vibrant cartwheel luster. An impressively bold strike characterizes each side, adding to the visual appeal. NGC Price Guide...\$14,000.
6576	1918-S Walking Liberty Half Dollar -- PCGS MS65	\$11,000	1	Only 4 finer at PCGS. This 1918 San Francisco issue displays touches of a light golden hue throughout frosty mint luster. PCGS Price Guide...\$20,000.
6584	1921-D Walking Liberty Half Dollar -- NGC MS62	\$10,500	1	This Denver issue boasts the lowest annual mintage of the Walking Liberty half dollar series (208,000 coins), and is one of the chief key dates overall. A very elusive and desirable issue in Mint State, of which only 275 to 375 pieces are believed extant. This 1921-D Walker is a find for the advanced collector. NGC Price Guide...\$11,000.
6587	1927-S Walking Liberty Half Dollar -- PCGS MS65	\$7,250	1	Only 10 finer at PCGS. A premium well struck quality Gem, this lovely coin boasts fulsome mint frost and uncommonly smooth surfaces even for the MS-65 grade from PCGS. Both sides are richly original in preservation, as well, with mottled toning in copper-russet. PCGS Price Guide...\$11,250.
6591	1933-S Walking Liberty Half Dollar -- NGC MS66+	\$5,950	1	Only 11 finer. Sunset-gold and reddish-coppery toning appears on both sides, intermingled with ivory-white luster. This is a well-made San Francisco issue, and the current example indeed shows a bold strike. Frosty luster is largely unabraded, adding to the strong visual appeal. In 2015, an NGC with the same date and grade sold in auction for \$11,163. NGC Price Guide in MS66...\$5,000 and In MS67...\$14,750. CDN Greysheet Bid for an MS67 coin...\$26,000.

6613	1941-S Walking Liberty Half Dollar -- NGC MS67	\$13,500	1	None Finer at either service. This one is overall brilliant with just subtle traces of champagne-gold iridescence. Softly frosted luster is seen throughout, the strike is sharp to full, and the surfaces are as pristine as would be expected for the assigned grade. Struck on the West Coast on the very cusp of World War II, the 1941-S is the undisputed key date issue in the popular Walking Liberty half dollar "short set" of 1941 to 1947. CDN Greysheet...\$18,000.
6613	1941-S Walking Liberty Half Dollar -- NGC MS67	\$13,500	1	None Finer. Here is an overall brilliant and pearlescent beauty, with pretty blue-gray and pinkish-apricot iridescence confined to the borders. Soft satin luster is seen throughout. And the surfaces are as pristine as would be expected for the assigned grade. Back in 2006, a PCGS coin of the same date and grade sold for \$90,850. Greysheet Bid...\$18,000.
6636	1936 Walking Liberty Half Dollar -- NGC PR67	\$7,350	2	Blast white surfaces on surfaces on this Superb Gem first-year proof Walker, while the fields glimmer with mirrorlike reflectivity, and the satiny devices show sharp definition. Only 3,901 proof half dollars were struck for proof sets in 1936, making this the single most elusive proof in the Walking Liberty half series. In 2006, a PCGS coin with the same grade sold in auction for \$29,900. NGC Price Guide...\$9,000.
6691	1950 Franklin Half Dollar -- NGC PF65+ Ultra Cameo	\$39,500	1	Pop 1 with 3 Finer at NGC. Here is an exceptionally well produced and preserved example of a key date Proof Franklin half dollar issue. Untoned surfaces set off the remarkable Ultra Cameo finish. Silky smooth and virtually pristine, even the finest collection of this popular 20th century series would be greatly enhanced by this lovely Gem. The 1950 is not only the first Proof half dollar of this type, but it is also the most challenging to collect. NGC Price Guide...\$40,000
6691	1950 Franklin Half Dollar -- NGC PF68	\$16,500	1	Pop 42 with one finer at NGC. None Finer at PCGS. Flashy mirrors and brilliant surfaces show only moderate contrast, yet this beautifully preserved Superb Gem proof is an eyeful. The pinpoint sharp strike complements impeccable fields and devices. NGC Price Guide...\$30,000.
6692	1951 Franklin Half Dollar -- NGC PF68	\$7,500	1	One Numerically Finer in the non-cameo category. This high-end proof is sharp and virtually flawless -- a conditional rarity in this lofty grade. Only one coin is reported numerically finer -- a PR69 non-Cameo NGC piece.
6692	1951 Franklin Half Dollar -- CACG PF68	\$9,500	1	Only one certified by CACG. None finer at CACG. Well-deserving of the grade that CAC bestowed upon it.

6878	1799 Draped Bust Dollar, 7x6 Stars, BB-165 -- NGC MS61	\$22,000	1	Strong eye appeal. Richly patinated in tan-gold and bluish-gray hues, this Mint State BB-165 Draped Bust silver dollar epitomizes original toning throughout its sharply struck and minimally marked surfaces. Despite being one of the more plentiful 1799 varieties, most of the population exist in worn grades. Fully Uncirculated examples are rarely available and only a half dozen or so pieces exceed the numeric grade of this attractive MS61 example. CDN Bluesheet...\$22,000. NGC Price Guide...\$26,000.
6887	1800 Bust Dollar -- NGC MS62	\$35,000	1	Pop 3 with 7 finer at NGC. Eye Popping Color! A truly outstanding coin for the grade designation. Medium-intensity gold-brown toning dominates the central areas of this MS62 example, yielding to cobalt-blue concentrated at the peripheries. An attentive strike emboldens the design features, with the sole exception of the eagle's breast feathers. Both surfaces exhibit soft luster and are quite well preserved. A truly outstanding coin for the grade designation. In 2008 A PCGS coin sold in auction for \$48,875. During that same year an NGC coin sold for \$46,000.
6939	1851 Liberty Seated Dollar -- NGC MS63+	\$67,500	1	Pop 1 with 2 finer. A legendary date in the U.S. silver dollar series, represented by a condition rarity Mint State coin. Both sides of this boldly toned example are sharply struck throughout the design. Vivid undertones of cobalt blue and deep mauve backlight dominant charcoal-rose patina, the obverse with a distinctive swirl of lighter golden-olive color above Liberty's ankle. We see no significant marks that would distract one's eye during in-hand viewing. Did you know? Circulation strike 1851 dollars, distinguished from the Proof restrikes by having the date set high in the lower obverse field, were produced to the extent of just 1,300 pieces. What few coins have survived from that delivery largely owe their existence to sharp-eyed bank tellers and others who recognized their rarity and set aside examples during the later decades of the 19th century. In 2022, a PCGS coin of the same grade sold for \$76,375. CDN Greysheet Bid in MS63 (non-Plus)...\$67,500. CDN Collectors Price Guide in MS63 (non-Plus)...\$81,000. 7156	1884-S Morgan Dollar -- NGC MS61	\$11,900	1	Richly Toned. The rarity of the 1884-S Morgan dollar in Mint State is well known, and survivors are avidly sought for advanced collections of this ever-popular series. NGC Price Guide...\$12,000. Back in 2013 an NGC coin of the same grade sold in Auction for \$21,150.

7156	1884-S Morgan Dollar -- NGC MS65	\$195,000	1	One of the very finest certified - and undoubtedly among the finest known - 1884-S Morgan silver dollars, this phenomenal condition rarity approaches numismatic perfection for this legendary key date issue. The surfaces are fully lustrous in a blend of satin and softly frosted qualities, the reverse also revealing delicate semi-reflective qualities in the field. The obverse is dressed in vivid rose-gray iridescence, while the lighter reverse has wisps of pinkish-gold toning that yield to brilliance at direct viewing angles. The striking detail is razor sharp to full throughout the design, and the eye appeal is exceptional, especially given that the 1884-S is one of the most challenging Morgan dollars to find in attractive Gem MS-65 preservation.. Incredibly Rare Gem Mint State 1884-S Morgan Dollar. In 2021 an NGC coin of the same grade sold in auction for \$150,000. CDN Greysheet...\$200,000. NGC Price Guide...\$260,000.

7214	1892-CC Morgan Dollar -- PCGS MS63 CAC	\$3,050	1	Blast White. A scarce Select Mint State survivor from a mintage of 1,352,000 pieces for this semi-key date CC-Mint Morgan dollar issue. PCGS Price Guide in MS63 Non-CAC...\$3,000. In MS64...\$4,500.
7216	1892-O Morgan Dollar -- PCGS MS63 CAC	\$825	1	Very slight toning. PCGS Price Guide in MS63 Non-CAC...\$850. In MS64...\$1150.
7226	1893-S Morgan Dollar -- PCGS AU53	\$39,000	1	This is a legendary Morgan dollar that ranks as the absolute rarity among circulation strikes of this type. The 1893-S is well-known as the series key in Mint State, with such pieces only occasionally being traded publicly. In fact, any 1893-S dollar in MS63 or finer grades is a tremendous rarity compared to other issues in the series. AU-level coins are themselves scarce. In 2023, a PCGS coin in the same grade sold in auction for \$43,200.
7268	1900-O/CC Morgan Dollar -- PCGS MS63	\$1,200	1	Blazing White. Beautiful golden-tinged surfaces possess bountiful mint frost. Rather than waste die steel, the Philadelphia Mint sent discarded CC reverse dies to New Orleans after partially effacing the mintmark, where they were used in coinage during calendar year 1900. PCGS Price Guide In MS63...\$1400. In MS67...\$45,000.
7358	1922-D Peace Silver Dollar -- NGC MS67	\$25,000	1	Only 2 finer at NGC in MS67+. None finer at PCGS. Phenomenal Condition Rarity! A brilliant and impressive Superb Gem. This fully struck example displays the razor sharp detail for which many Denver Mint Peace dollars are known. What sets it apart from the majority of Mint State 1922-D dollars, however, is the smooth frosty surfaces that border on pristine. Greysheet Bid...\$50,000.
7366	1925-S Peace Dollar -- NGC MS65	\$14,900	1	Only 1 finer at NGC. Blast White. The 1925-S is one of the two rarest dates in the Peace dollar series, rivaled only by the 1928-S. These two issues have long been similar in rarity in MS65 and finer grades, although many collectors consider the 1925-S the slightly rarer of the two. This Gem coin represents the finest quality typically collectible for the 1925-S. NGC reports a single numerically finer piece, but no finer coins are listed at PCGS. Each side is brilliant and vibrant, showing strong cartwheel luster across well-struck design elements. In 2023, a PCGS coin with a CAC sticker sold in auction for \$72,000. CDN Greysheet...\$16,000. CDN Collectors Price Guide...\$19,200.
7366	1925-S Peace Dollar -- NGC MS65	\$14,900	1	A landmark rarity. Same coin as above only with brilliant, gently mottled champagne-pink iridescence that is confined to the peripheries. 87482	1903 LA Purchase, Jefferson Gold Dollar -- NGC PF66 Ultra Cameo	\$22,500	1	Pop 1 with only one numerically finer at NGC. The first 100 coins each struck of the Louisiana Purchase/McKinley and Jefferson gold dollars were proofs, accompanied by "framed affidavits" certifying their status and signed by Mint officials. This deeply mirrored, nicely contrasted example of the Jefferson type shows far more detail on the hair, face, collar, and coat than normally seen on the circulation strikes. Bright lemon-yellow surfaces host reflective fields and perceptibly frosted devices, an extremely attractive piece. In 2018 a PCGS Coin of the same grade sold for \$25,000. NGC Price Guide...\$34,000.
7324	1903 LA Purchase, McKinley Gold Dollar -- PCGS PR67 Cameo	\$29,500	1	Pop 2 with none finer at PCGS. 7448	1905 Lewis & Clark G\$1 -- NGC MS67	\$24,900	2	Pop 4 with only one finer at NGC. The Lewis and Clark Exposition was held in Portland, Oregon in 1905, marking the centennial of the expedition that Meriwether Lewis and William Clark took to the Pacific Northwest. They reached the Columbia River and the Pacific Ocean in 1805. Their journey began on May 14, 1804, and continued until September 23, 1806. Congress authorized the production of as many as 250,000 Lewis and Clark gold dollars dated 1904 and 1905, but sales were dismal with just 10,000 of each distributed, plus a small additional number for assay purposes. This commentary about the 1904 Lewis and Clark gold dollars applies equally to the 1905 issue: "Hundreds of them are available in grades ranging from MS62 to MS65. Even MS66 examples are readily available, and only in MS67 does this coin become rare." The present Superb Gem is one of those rare MS67 examples. Both sides have sharp design details, pristine yellow-gold surfaces, and frosty mint luster. In 2006, an NGC coin in the same date and grade sold in auction for \$54,625. NGC Price Guide...\$40,000.

7449	1915-S Pan Pac Gold Dollar - PCGS MS67	\$3,900	1	None numerically finer. A beautiful survivor from this coveted issue, displaying warm golden-wheat color on original surfaces. Sharply struck with universal satin luster and freedom from grade-limiting blemishes. This piece is one of the finer examples of the type known, ranking near the top of the PCGS Population Report. PCGS Price Guide...\$6000.
7450	1915-S Pan Pac \$2.5 Gold Piece -- NGC MS67	\$8,100	3	Only three numerically finer. Satiny, beautifully preserved peach-gold surfaces yield a soft cartwheel effect on this Superb Gem, illuminating boldly struck devices. In 2013, a PCGS coin of the same grade sold in auction for \$21,150. NGC Price guide...\$9750
7452	1915-S Pan Pac \$50 Octagonal -- NGC MS64 CAC	\$118,000	1	The 1915-S Panama-Pacific fifty dollar gold pieces have been newsworthy since their introduction as part of the world's fair held in San Francisco that year. On January 27, 1915, the Oakland Tribune announced. Their limited distribution, large size, unique shape, and beautiful design have always made the 1915-S fifties eminently popular with collectors, with notices of their sale at auction appearing in major metropolitan newspapers as early as the 1930s, less than 20 years after their production. Today, the coins are just as sought-after, just as appreciated, and just as noteworthy. This particular piece has rich yellow-gold example with finely textured surfaces and softly frosted luster. NGC Price Guide...\$120,000.
7454	1916 McKinley Gold Dollar -- PCGS MS67+	\$3,950	1	There are nine different U.S. commemorative gold dollar issues (counting dates and varieties) beginning with the two Louisiana Purchase coins of 1903 and ending with the 1922 Grant With Star and No Star dollars. Although the 1916 McKinley gold dollar is generally the most available of those commemorative gold dollar issues, this is a remarkable example that simply blows away most others in terms of preservation and eye appeal. PCGS Price Guide in MS68...\$60,000.
7454	1916 McKinley Gold Dollar -- NGC MS67+ CAC	\$4,750	1	Only 4 finer. Gorgeous satin surfaces are fully impressed with vivid rose-orange patina. Virtually pristine, and worthy of a bid commensurate with its technical quality and eye appeal. NGC Price Guide in MS67+...\$4,000. (Non-CAC). Price Guide in MS68...\$19,500.
7458	1922 Grant No Star -- NGC MS66	\$1,900	1	NGC Price Guide...\$2200.
7466	1926 \$2.5 Sesquicentennial -- NGC/PCGS MS66	\$5,150	4	This examples is tied for the finest certified by PCGS. There are 3 finer at NGC and 1 finer at PCGS. The net mintage of the Sesquicentennial quarter eagle, 46,019, amounted to one-third of the total net mintage of all gold commemorative coins issued from 1903 to 1926. We used the term net mintage to represent the actual coins released or distributed, as some commemorative issues had substantially higher initial mintages, but with considerable numbers melted after remaining unsold. This issue is a perfect example, as the initial mintage totaled 200,226 coins, with 154,207 of those melted at a later date, leaving the net mintage of 46,019 coins. In 2006 a PCGS coin in the same grade sold in Auction for \$19,550. During that same year, an NGC coin of the same grade sold in Auction for \$16,963.

10041	(1842-50) North Carolina/Georgia Gold \$1 A. Bechtler 27G Plain Edge NGC MS-62	\$7,500	1	Mintage Unknown. A lovely Mint State example. Considerable reflectivity emanates from each side of this attractive example, showing fresh yellow gold color and great eye appeal. The design is simple but efficient, consisting solely of letters and numerals. This variety is fairly common in general but, like most Bechtler gold coins, it is very rare in Mint State.
7531	1854 Gold Dollar, Type 2 -- NGC MS65	\$22,500	1	Only 11 finer at NGC. Here is an elusive Gem example of the scarce Type II gold dollar, a visually stunning piece with a warm blend of apricot and honey-gold shades throughout. DID YOU KNOW? The Philadelphia Mint was the only facility to produce the Type II gold dollar in 1854, striking 783,943 pieces of the new design along with 855,502 of the Type I dollars. Taken as a whole, the Type II design is by far the scarcest of the three basic types. Anywhere from 5,000 to 8,000 remain with maybe a quarter to a third in Mint State. The true rarity of the 1854 Type II gold dollars emerges at the Gem level, where only about 50 examples remain. In 2004, an NGC coin of the same grade sold in auction for \$60,375. 7532	1855 Gold Dollar, Type 2 -- NGC MS65	\$22,500	1	Only 12 numerically finer at NGC. Superior Strike and Eye Appeal. This coveted and lovely Gem 1855 gold dollar offers superior technical quality and outstanding visual appeal for this conditionally challenging gold dollar type. Frosty surfaces are fully lustrous and display wisps of iridescent pinkish-rose to a base of warm golden-apricot color. Sharply struck overall. This coin has exceptional eye appeal. NGC Price Guide...\$30,000.
7532	1855 Gold Dollar, Type 2 -- PCGS MS66	\$36,000	1	Pop 14 with 2 finer at PCGS. This exceptional upper end Gem 1855 gold dollar will please even the most discerning collector. Frosty surfaces are fully lustrous and display lovely, light, even yellow-gold color. As one of the finest known examples graded by PCGS, this is a superior quality example both for the issue and for the entire type. A superb candidate for anyone seeking a premium quality representative of this challenging type. In 2004 a PCGS coin of the same grade sold for \$64,400!. PCGS Price Guide...\$55,000
7544	1857 Gold Dollar, Type 3 -- PCGS MS66	\$5,850	1	Only five finer at PCGS. a yellow-gold beauty with frosted-satin luster and rich orange-peach overtones. 7637	1887 Gold Dollar, Centered Date -- PCGS PR67+	\$29,500	1	Pop 1. Here is a particularly desirable example of a rare classic U.S. Mint Proof gold issue. Thoroughly PQ, its originally preserved golden-rose surfaces also reveal delicate powder blue highlights as the surfaces rotate under a light. The finish is reflective in the fields, more frosty on the design elements, the latter with full detail from an expert strike. Smooth in hand with eye appeal to spare, even the most discerning collector will be impressed by this gorgeous upper end Superb Gem. PCGS Price Guide...\$32,500.
87638	1888 Gold Dollar -- NGC PF65+ Cameo	\$9,500	1	Pop 11 with 19 finer at NGC. This is one of 1,079 proof gold dollar struck in 1888, the year before the denomination was abolished. Probably fewer than 225 examples survive. Definition is expectedly razor-sharp and contrast is bold. Premium quality Gems such as this are in great demand from today's quality conscious numismatists. A beautiful specimen in all regards, this high end Gem is sure to please. NGC Price Guide...\$12,750.
87638	1888 Gold Dollar -- NGC PF67+ Cameo	\$29,500	1	Pop 2 with 2 numerically Finer at NGC. One of the finest seen from the modest mintage of 1,079 pieces, and with magnificent eye appeal. Boldly reflective mirrors dance and beam all over; they are ultra flashy and totally smooth, devoid of any distractions. Terrific eye appeal complements the high technical grade. NGC Price Guide PF67 (Common Designation)...\$23,500.
7590	1889 Gold Dollar -- PCGS MS66 CAC	\$2,100	1	Soft, satiny mint luster flows serenely over smooth golden-wheat surfaces. Sharply struck, as well, and of further appeal for type purposes given this issue's final year status in the circulating gold dollar series. PCGS Price Guide in MS66 Non-CAC...\$2650. In MS67...\$4500.
<b>PCGS #</b>	<b>\$2.5 Gold Quarter Eagles</b>	<b>Price</b>	<b>QTY</b>	<b>Description</b>
7656	1807 Capped Bust Right Quarter Eagle -- NGC MS63	\$67,500	1	Pop 4 with 1 finer at NGC. This piece is an exceptionally attractive Mint State example of a challenging early U.S. Mint gold design type. The stunning gold surfaces are enhanced by outstanding luster in a softly frosted texture. The 1807 quarter eagles are the "common date" coins of the type with a mintage of 6,812 coins. In most other series, that mintage would represent a major rarity. Mint State examples, however, haven't been common since the issue was released in 1807. In 2022 a CAC coin sold in auction for \$156,000 dollars! NGC Price Guide...\$150,000.
7664	1825 Capped Head Left Quarter Eagle, BD-2 -- NGC MS61	\$37,500	1	Pop 13 with 17 finer among all die marriages. Rare Mint State Quarter Eagle. This is an enchanting example of one of the rarest types among classic U.S. Mint gold coinage. Intensely lustrous with crisply denticulated borders, the eye appeal remains strong for the assigned grade. A semi-proof-like finish in the fields contrasts nicely with a more satin texture to the devices, the entire package dressed in bright golden-olive color. NGC Price Guide...\$36,500.
7692	1834 Classic Quarter Eagle -- NGC AU53	\$1,400	1	Classic Collector coin.
7692	1834 Classic Quarter Eagle -- NGC MS65+	\$39,500	1	Pop 1 with 1 finer. Small Head quarter eagles make up more than 50% of the surviving 1834 Classic quarter eagles (all varieties combined), although HM-1 is the sole use of the Small Head obverse. Liberty's back curls are aligned vertically in straight line and faint die polish lines angle downward toward star 13 from the upper-left obverse. The smooth, minimally marked fields show areas of reflectivity and abundant luster flash brightly when the coin rotates under a light. Plentiful eye appeal drifts across the attractive, wheat-gold surfaces. This high-end Gem Uncirculated example is ranks among the top dozen examples seen by NGC and PCGS combined. No price guide information available. PCGS Price Guide...\$60,000.
7697	1838-C Classic Gold Quarter Eagle -- NGC AU58	\$20,000	1	The 1838-C Classic Head quarter eagle represents not only the first year of coinage for the Charlotte Mint, but also one of the two rarest issues for among all Classic Head quarter eagles. The distinctive obverse mintmark on 1838 and 1839 Charlotte quarter eagles is another anomaly for the Classic gold series. The 1838-C mintage was a low 7,880 pieces from which only 150 examples are thought to survive today. In 2023, a comparable PCGS coin with a CAC sticker sold in auction for \$32,400. NGC Price Guide...\$25,000.
7773	1854-S \$2 1/2 Liberty - PCGS VF20	POR	1	Iconic US Gold Rarity. Listed #90 in 100 Greatest U.S. Coins book. This impressive example exhibits light-to-moderate wear on the devices. A few traces of original mint luster remain intact in sheltered areas. The overall presentation is quite attractive. Only 11 or 12 are known with one in the National Numismatic Collection at the Smithsonian Institution. Initial San Francisco Mint issue. This legendary quarter eagle was struck as the newly opened San Francisco branch mint got up and running. The majority of the gold flowing out of the hills, rivers and valleys of California was used to make the convenient sized double eagles, which absorbed the greatest amount of gold per coin being struck. These double eagle coins were used for large transactions or quietly slipped into circulation. Little attention was initially paid to the minor coinages or to these smaller gold denominations, despite the need for such coinage in circulation. In 1854, San Francisco coined only 246 quarter eagles, and from that meager issue, there are thought to be a dozen distinct specimens known today. Furthermore, this is one of the rarest of the regular issue United States coins ever produced. Only the 1875 half eagle and 1875 eagle have smaller mintages than the 1854-S quarter eagle. PCGS Price Guide...\$525,000.
7774	1855 \$2.5 Quarter Eagle -- NGC MS65	\$9,750	1	None finer at NGC and only 1 finer at PCGS. With vivid yellow gold patina, vibrant luster and a boldly executed strike, this remarkable 1855 has an appearance that one normally sees only in late date Liberty quarter eagles. Although this is a comparatively plentiful issue for this era, not many are known at such lofty grade levels, and precious few finer. NGC price guide...\$12,500.
7781	1856-S Quarter Eagle -- NGC MS62	\$5,250	1	Only 1 finer at NGC. This lovely and rare Mint State two-and-a-half is highly lustrous with a frosty to modestly semi-prooflike finish. The dies also imparted sharp to full detail throughout the design, the entire package dressed in vivid honey-rose color that provides strong visual appeal. With the 1854-S a legendary rarity and no quarter eagles struck in the West Coast mint in 1855, the 1856-S is the first collectible issue of this denomination from the San Francisco Mint. NGC Price Guide...\$7,000.

7794	1861/1861 Type 2 Quarter Eagle -- NGC MS61	\$3,250	1	Pop 2 with only 7 finer. Rare 1861/1861 overdate \$2.50 Liberty Gold Quarter Eagle variety. The entire date was repunched clockwise with respect to the first impression. Doubling is plainly evident on numerals 18. Popular variety that should be part of any Quarter Eagle collections. Only a total of 14 of this variety have been certified in all grades by NGC. No NGC price guide information available for this variety.
7913	1887 Quarter Eagle -- NGC PF64 Cameo	\$13,500	1	Pop 7 with 7 finer in this category. a Choice Proof quarter eagle, this is a sharp and inviting piece with frosty devices that appear to float atop watery reflectivity in the fields. It is a simply beautiful near-Gem with vivid rose-gold surfaces beneath a dusting of pale silvery iridescence. Virtually blemish free in appearance. Mint records include a mintage figure of 122 coins for the Proof 1887 quarter eagle, although many appear to have been released into commercial channels when they failed to sell to contemporary numismatists. The best estimate for the number of survivors is only 45 to 60 known in all grades. NGC Price Guide...\$15,000.
7943	1911-D \$2.5 Indian, Strong D -- NGC MS64+ CAC	\$29,500	1	This coin offers exceptional quality and eye appeal for an elusive, conditionally challenged Indian \$2.50 issue. Beautiful surfaces are bathed in a bold blend of honey-apricot color and frosty mint luster. Smartly impressed with sharp detail throughout the design, there is much to recommend this near-Gem to discerning 20th century gold collectors. NGC Price Guide...\$33,500.
7954	1911-D \$2.5 Indian, Weak D -- NGC MS61	\$4,500	1	Pop 3 with only 3 in the "Weak D" Variety at NGC. Pleasing honey-gold surfaces with a tinge of light olive, both sides also sport bold to sharp striking detail to all design elements. The mintmark is very faint, as expected for the Weak D attribution from NGC, although with persistence and good lighting from the right angle, it is readily discernible. The key date issue among circulation strike Indian quarter eagles, the 1911-D is eagerly sought in all grades, especially those at the Mint State level. NGC Price Guide...\$4,500.

7971	1854-O Three Dollar -- NGC MS60	\$45,000	1	Pop 9 with 16 finer at NGC. As the first year of the denomination, the 1854-O is one of the most sought-after issues in the three dollar gold series, being the only one struck at the New Orleans Mint. Production totaled only 24,000 coins, most of which went into circulation. Mint State pieces are rare in any grade. This entry-level Mint State piece displays rich orange-gold luster. Greysheet Bid...\$45,000. CDN CPG Retail...\$54,000. PCGS Price Guide...\$65,000.
7859	1856-S Three Dollar Gold Piece -- NGC F12	\$790	1	Nice original piece.
8057	1879 \$4 Flowing Hair Stella, Judd-1635 -- PCGS PR64 CAC	\$205,000	1	Listed among the 100 Greatest US Coins. This is an impressive PR64 specimen from Bruce Sherman's fabulous private collection, with sharply detailed design elements in most areas. The usual striations seen on almost all examples are minimized on this piece. The lightly marked orange-gold surfaces show just a few minor ticks and hairlines in the fields. The deeply mirrored fields show some modest (but unacknowledged) cameo contrast with the frosty design elements. Overall eye appeal is outstanding and the high quality within the grade is confirmed by CAC. DID YOU KNOW? It was a Philadelphia patent lawyer and inventor, Dr. William Wheeler Hubbell, who suggested a four dollar gold piece. The denomination fit in with his grandiose proposal for an entire system of "metric" coinage struck in his patented gold alloy. The coins were largely sold to Congressmen as part of sets for \$10. They were later offered to collectors for \$15. In 2008, a PCGS coin in PR64 (Non-CAC) sold in auction for a record \$431,250. PCGS Price Guide in PR64 (Non-CAC)...\$220,000. In PR65...\$280,000.
8057	1879 Flowing Hair Stella, Judd 1635 -- PCGS PR65	\$220,000	1	Pop 16 with 10 finer at PCGS. Listed Among the 100 Greatest U.S. Coins. Mintage...425. The present coin is an attractive Gem proof representative of this popular odd denomination. The design elements are sharply detailed throughout and the well-preserved orange-gold surfaces exhibit no mentionable distractions. The 1879 Flowing Hair Stella is one of the most popular and charismatic issues in the history of American coinage. Technically a pattern (Judd-1635), traditionally the stellas have also been collected as trophy coins and type issues by a wide range of collectors from many different collecting interests. Despite a surviving population of several hundred pieces, there are never enough high-quality examples available to satisfy the intense collector demand. Heritage Auctions is privileged to showcase this attractive Gem proof specimen in this important offering. In 2021, a PCGS coin with a CAC sticker sold in auction for \$330,000. PCGS Price Guide...\$280,000.
8057	1879 Flowing Hair Stella, Judd 1635 -- PCGS PR65	\$220,000	1	Pop 16 with 10 finer at PCGS. Listed Among the 100 Greatest U.S. Coins. Mintage...425. Although this spectacular Gem does not carry a formal Cameo designation, contrast between the fields and devices is unmistakable. The light greenish-gold surfaces appear virtually unmarked. The borders all around each side are squared off and razor-sharp, and central design definition is much stronger than usual. The always-seen parallel striations show faintly on the bust and star in a nearly horizontal orientation. Overall eye appeal is outstanding. In 2021, a PCGS coin with a CAC sticker sold in auction for \$330,000. PCGS Price Guide...\$280,000.

8083	1802/1 Capped Bust Right Half Eagle, BD-8, High Overdate -- NGC MS63	\$29,500	2	Pop 15 with 15 finer at NGC. A thoroughly appealing early half eagle, both sides possess full mint bloom in a soft satin texture. Vivid olive and golden-apricot colors also greet the viewer from both sides, the surfaces of which are pleasingly smooth to fully justify the impressive Choice Mint State rating from NGC. Overall sharply struck from a well centered impression, the detail to Liberty's hair tresses and the eagle's breast and wing feathers is particularly impressive. In 1990, a similar PCGS sold in auction for \$119,800. NGC Price Guide...\$40,000.
8101	1807 Capped Bust Half Eagle -- NGC MS63	\$17,500	1	Smartly impressed with razor sharp to full definition throughout, lustrous and frosty features are impressively smooth in hand for the assigned grade. Sure to please the advanced gold enthusiast.

8104	1809/8 Capped Bust \$5 Half Eagle -- PCGS MS63+	\$33,000	1	As a date, the 1809 is the scarcest. BD-1 is the only 1809-dated die marriage. The 9 is larger than the other date digits - a debatable overdate, with traces of an underdigit beneath the 9 that may be an 8, 9, or something else. On the reverse, AMERI is spaced much more closely than ICA. This is a delightful lemon-gold 1809 half eagle with pleasing, sharply struck surfaces. Frosty mint luster illuminates both sides
8108	1810 Large Date, Large 5 Half Eagle -- NGC AU58	\$10,250	1	Here's a Choice AU example of a popular early half eagle variety that will no doubt find its next home in an advanced gold type set. Light golden yellow patina blankets surfaces that retain plenty of satiny mint luster, generally in the protected areas within and around the devices. It's estimated that 500 to 750 pieces exist. NGC Price guide...\$12,250.
8110	1811 \$5 Capped Bust Half Eagle, Tall 5 Denomination -- PCGS MS63	\$26,500	1	Pop 1 with 2 finer of this variety at PCGS. Overall, 175 to 250 know in this variety. This brilliant and lustrous Select Uncirculated example displays a sharp strike on both sides. Attractive green-gold color deepens slightly at the centers and flatters the overall sharp strike. All pre-1834 gold coins are scarce, if not outright rare by definition. PCGS Price Guide...\$30,000.
8117	1814/3 Capped Bust \$5 Half Eagle -- NGC MS62	\$33,000	1	Pop 12 with 13 finer at NGC. This frosty and lustrous, yellow-gold MS62 coin is sharply struck. This popular overdate is the sole 1814 variety. Perhaps as many 100 pieces are known according research. Mint State examples are considerably scarcer than that. As the second issue in the Capped Head Left half eagle series of 1813 to 1834, the 1814 is an overdate with only a single die pairing known. The obverse was initially intended for use in 1813, but was not used and was subsequently overdated for use the following year. The reverse was also used to produce the 1813 BD-2 variety, as well as the exceedingly rare 1815. CDN Collectors Price Guide...\$37,000.
8119	1818 Capped Head Half Eagle, Rare BD-1 Variety -- NGC MS62	\$30,000	1	Pop 9 with 9 finer at NGC. Bright luster highlights this attractive yellow-gold half eagle. Scattered light marks are consistent with the grade of this lovely piece. The strike is strong and full, with all details proudly displayed. A good opportunity to acquire this scarce date with a nice Uncirculated example. A mintage of 48,588 half eagles were delivered during 1818. It's estimated that just 50-65 coins are known for this BD-1 variety. Greysheet...\$30,000. NGC Price Guide...\$34,500.

8270	1856-S \$5 Liberty -- NGC MS61	\$12,500	1	Pop 3 with 1 Finer at NGC. Beautiful piece with full luster. Striking detail is sharp in virtually all areas. A solid Condition Census offering from the earliest days of San Francisco Mint coinage. In April 2023, a PCGS coin in MS62 with a CAC sticker in sold in auction for \$33,600.
8285	1860-C Half Eagle -- NGC MS63	\$24,000	1	Pop 1 with 2 finer. Not many of the 14,813 Charlotte Mint half eagles struck in 1860 have survived, and high-quality examples are major rarities. It's been noted that Most of the coins seen for this date are heavily circulated. The average 1860-C half eagle is no better than Extremely Fine. High-grade examples are known, but seldom offered. Just a few examples of the 1860-C like this have been graded at the choice level.
8289	1861-C \$5 Liberty -- NGC AU53	\$21,500	1	Here is a superior quality survivor of a rare and historic Southern gold issue. The 1861-C is the eighth rarest of 24 dates in the Charlotte Mint half eagle series, there being only 200 or so coins extant in all grades. This About Uncirculated example is finer than most and has much to offer advanced Southern gold enthusiasts.
8297	1864-S Liberty Half Eagle -- PCGS AU53 CAC	\$87,000	1	Pop 2 in AU53 with 3 finer. Pop 1 with 2 finer at CAC. Quietly Rare, Always Challenging To Find. The Fifth Finest Example Known. The coin displays a delightful, orange-gold color with lilac overtones. This notably rare half eagle is well-recognized by advanced collectors, but the issue is sometimes overlooked by those not fully aware of its place among Liberty fives. Quietly rare, it is surpassed in scarcity only by the 1842 Large Letters, 1843-O Small Letters, 1875 (just 200 minted), and the legendary 1854-S. With a tiny mintage of just 3,888 pieces, it is rare in an absolute sense although the mintage, small as it is, masks its true challenge. An estimated survival of fewer than 30 examples in all grades makes it more difficult to obtain than the 1865 issue, for example, which has a smaller mintage of just 1,270 pieces but a larger number of survivors. PCGS Price Guide in AU53 (Non-CAC)...\$175,000. In AU55...\$225,000.
8313	1867 \$5 Liberty -- NGC AU58	\$10,700	1	Pop 5 with 2 finer at NGC. This is a low-mintage issue with a total production of just 6,870 coins, with probably no more than 100 coins that survive today in all grades. This was still a time of great hoarding of precious metals, with most melted after production. The few that did circulate and eventually survive were not carefully preserved, and today have considerable wear or numerous problems. This lovely example has nearly full luster with outstanding surfaces. CDN Collectors Price Guide...\$12,000.
8352	1880-CC \$5 Liberty -- NGC AU53	\$5,250	1	PQ. Plenty of luster on this one. Carson City Mint officials coined 51,017 half eagles in 1880, representing a significant increase over previous years' totals. It is estimated that as many as 425 to 500 examples survive, but rarely are they seen this nice. NGC Price Guide in AU58...\$9,650.

8385	1893-O \$5 Liberty -- PCGS MS63	\$6,750	3	Only 1 finer at PCGS. A delightful half eagle with frosty golden-rose surfaces on both sides. Well struck and sharp, the luster is full with a softly frosted texture. Despite its status as the second most plentiful New Orleans Mint half eagle, the 1893-O is scarce in an absolute sense with a mintage of 110,000 coins. PCGS Price Guide...\$7500.
8397	1898-S \$5 Liberty -- NGC MS65+	\$6,900	1	Only 6 finer at NGC. The 1898-S has a respectable mintage of close to 1.4 million pieces, and can be located with minimal effort in AU55 to MS63 grades. Near-Gems are undeniably scarce, and fully Gem examples are rare. The present well-struck, orange-gold Liberty five dollar has remarkably smooth fields, and the portrait is virtually free from contact. NGC Price Guide...\$7125.

This spectacular coin has brilliant and highly lustrous surfaces and displays vibrant orange-gold, lemon, and pale blue-green toning. The strike is excellent and the presentation is aesthetically delightful. All Indian half eagles are conditionally rare in grades above MS65. In 2006, a PCGS coin in the same grade sold in auction for a record \$51,750. PCGS Price Guide...\$25,000.
8515	1909-O Indian Half Eagle -- NGC MS62	\$27,500	1	This key-date 1909-O half eagle offers a third significant bidding opportunity in this sale for collectors of 20th century gold coins. The surfaces are handsome deep honey-orange and olive, and the striking quality is superior for the issue with overall full definition to both sides. The O mintmark is exceptionally crisp and well defined. This coin is suitably lustrous and attractive for the assigned grade. In 2013, a similar NGC coin sold in auction for \$56,400. NGC Price Guide...\$42,500.
8515	1909-O \$5 Indian -- NGC MS63	\$89,500	1	Pop 8 with 9 Finer at NGC. Remarkable absolute and condition rarity. This is an extraordinarily attractive example of this major rarity. The surfaces are original, with each side showing intermixed bright gold and lilac patina. The strike is strong throughout. DID YOU KNOW? The 1909-O half eagle is one of the rarest regular-issue coins from the 20th century. Only 34,200 pieces were issued in this final year of production in the New Orleans Mint. While occasionally available in VF through AU grades, the number of Uncirculated pieces is always in extremely short supply. In fact, the number certified in Mint State can only be compared to the legendary 1929. NGC Price Guide...\$110,000.

This is an exceptional Premium Gem example of the smooth and glistening 1910 issue, which represents the brightest finish of the Matte Proof era. The satin (often called Roman) finish of the 1909 and 1910 proofs are today considered some of the most desirable of all the matte Indian five proofs. The Philadelphia Mint struck a generous production of 250 proof Indian half eagles in 1910, the largest proof mintage of the series, using the same Satin finish used on proofs the year before. It's estimated that only 80-90 examples are extant in all grades, making the 1910 slightly more elusive than the 1908, 1911, and 1912 issues.</b>

8907	1852-O \$20 Liberty -- NGC MS63	\$135,000	1	Pop 2 with only 1 finer between both services. An outstanding example of a New Orleans Mint double eagle of any year in terms of both strike and surface. The strike is strong and even with excellent details, contrary to the usual almost haphazard strike typical of the double eagles struck at the historic Louisiana facility. The obverse is unlike most examples of the issue with complete center star points, a bold date, and perfect dentils. The same excellence in strike is found on the reverse with razor sharp details highlighted by the bright golden hues found amongst the radiant frosty luster, making for a specimen rich in character and appeal. 8924	1858-O \$20 Liberty -- NGC AU58	\$36,500	1	Only 9 finer at NGC. Both Absolute and Condition Rarity. Elusive in all grades, this key date New Orleans Mint double eagle offers significant and highly desirable Choice AU quality. It displays bright, even, golden-orange color, with a tinge of olive also evident. Ample luster remains, the fields with flashes of reflectivity that indicate a semi-proof like finish. Sharply struck in most areas and is a well preserved and attractive coin that would serve as a focal point in the finest gold cabinet. NGC Price Guide...\$50,000.

8934	1861-O \$20 Liberty -- PCGS AU55	\$55,000	1	Historic Pre-Civil War Issue. Older PCGS Holder. The desirability of the 1861-O double eagle stems from two important characteristics of this issue. First, the 1861-O is a scarce issue in all grades with fewer than 175 survivors from a mintage of 17,741 pieces. Second, the mintage for the 1861-O comprises coins that were struck under three different governments -- a unique occurrence in the Liberty Head double eagle series that has affected few other issues throughout U.S. coinage history. The mintage for the 1861-O can be divided as follows: January 1-26, 1861: 5,000 coins struck under the authority of the United States of America. January 26-March 31, 1861: 9,750 coins struck under the authority of the State of Louisiana after it seceded from the Union and took over control of the New Orleans Mint. April 1-30, 1861: 2,991 coins struck under the authority of the Confederate States of America after Louisiana joined the Southern Confederacy. In 2014, an NGC coin in the same grade sold in auction for \$76,375. Greysheet Bid...\$60,000. PCGS Price Guide...\$90,000.
8935	1861-S \$20 Liberty -- PCGS MS60	\$15,500	1	Pop 7 with 28 finer at PCGS. This solid BU 1861-S in MS-60 makes impressive addition to an advanced double eagle cabinet. Attractively original surfaces are bathed in warm honey-apricot color. The detail is bold to sharp, and pleasingly so for the issue. Full, billowy mint luster blankets both sides and rounds out an impressive list of attributes. PCGS Price Guide...\$20,000.

8939	1863 \$20 Liberty, SS Republic -- PCGS MS62	\$42,500	1	Among the Finest Seen by PCGS. The double eagles of 1863 are scarce in any grade and are seldom seen in Mint State. Just over 142,000 examples were minted, positioning it as one of the rarest Type I issues produced by the Philadelphia Mint. Due to hoarding, the issue did not circulate in the East or Midwest. They were available only by paying a sharp premium for them. It is likely that many double eagles of this era were exported and melted at their destination, as Uncirculated examples have not turned up in European bank hoards. In 2014, a PCGS coin in the same grade sold in auction for \$76,375. PCGS Price Guide...\$62,500.

8942	1864-S \$20 Liberty Brother Jonathan Shipwreck -- NGC MS62	\$19,500	1	Bright and lustrous. The 1864-S once ranked as a foremost rarity in Mint State. In 1999, as a consequence of the underwater excavation of the wreck of the S.S. Brother Jonathan, which sank in 1865, newly discovered Mint State examples are among the roster of known specimens, followed by more from the S.S. Republic treasure. NGC Price Guide...\$25,500.
8943	1865 \$20 Liberty SS Republic -- NGC MS65	\$79,500	1	From the SS Republic Shipwreck. Pop 10 with 2 finer at NGC. The sun-gold surfaces of this outstanding MS65 survivor glisten with soft mint frost, and they remain exceptionally clean. SS Republic was a sidewheel steamship, originally named SS Tennessee (also named CSS Tennessee, USS Tennessee, and USS Mobile for a time), lost in a hurricane off the coast of Georgia in October 1865, en route to New Orleans. DID YOU KNOW? In 2003, the wreck was located 100 mi (160 km) off the coast of Savannah, Georgia and artifacts are on display in selected museums, along with video stories about passengers and crew members.
8944	1865-S \$20 Liberty SS Republic, Small S -- NGC MS62	\$13,900	1	A frosty example of this once-rare issue that has become more available due to the discovery of several shipwreck hoards including that of the S.S. Republic. The excitement surrounding all of these shipwrecks has created an exciting sub-culture of collectors who specifically seek such coins. NGC Price Guide...\$14,500.
8949	1866 \$20 Liberty With Motto -- PCGS/NGC AU58	\$6,300	2	The first year of the Liberty Head Motto design saw a mintage of 698,745 coins at the Philadelphia Mint. Most examples were exported and subsequently melted, and those that survive are often circulated to some extent. Mint State representatives prove challenging. PCGS & NGC Price Guide...\$7750.

8951	1867 \$20 Liberty -- PCGS MS62	\$12,200	1	Impressive BU Example of the date. Lustrous and satiny surfaces are further enhanced by original mint color in vivid golden-rose. The mintage of this Philadelphia Mint issue is 251,015 circulation strikes. An exception to the general rule for double eagle issues from the Civil War and Reconstruction eras, many were sent to Europe, and of these at least a few hundred were not melted. This is a truly impressive coin in a BU 1867 double eagle, and a find for both Mint State type and date collectors. In 2013 a PCGS coin in the same grade sold for \$16,450.
8954	1868-S \$20 Liberty -- NGC MS61	\$7,900	1	Only 7 numerically finer. Although more than 800,000 double eagles were struck at San Francisco in 1868, few pieces survive in Mint State. In fact, examples are scarce in MS60 and MS61, and anything finer is a major rarity. This piece has lovely golden-honey color blends with billowy mint luster on both sides of this well struck, highly attractive coin. Back in 2012, a PCGS coin with the same grade sold for \$28,200. NGC Price Guide...\$13,750.
8955	1869 \$20 Liberty -- PCGS MS61	\$15,500	1	An original and attractive example with handsome color to lustrous, frosty surfaces. Very well struck for the type with superior quality and eye appeal at the assigned grade level. PCGS Price Guide...\$20,000.
8957	1870 \$20 Liberty -- NGC MS62	\$25,500	1	Pop 15 with only 4 finer at NGC. Handsome honey-gold coloration that is a well-struck and is a fully lustrous example with superior eye appeal for the assigned grade. The date is surprisingly elusive in all grades today, especially in Mint State. Like most Type Two twenties, the 1870 circulated heavily at the time of issue, and few were saved by contemporary collectors. Just 155,150 circulation strike double eagles of this date and mint were produced and many of these were sent overseas in later years, by which time they were worn. While EF and AU coins are readily obtainable in the context of the Type II Liberty Head series, Uncirculated examples are rare and seldom found. CDN Greysheet...\$26,000. NGC Price Guide...\$35,000.
8961	1871-CC \$20 Liberty -- NGC AU-55 CMQ	\$84,000	1	The 1871-CC double eagle is one of the principle rarities of the denomination struck at Carson City, second only to the vaunted 1870-CC. Here is an appealing example with tinges of pale pinkish-rose iridescence on warm honey-gold color. Both sides are lustrous for the grade with faint semi-proof-like qualities to an otherwise satiny finish. Sharply defined overall. This example represents a significant find for the advanced numismatist seeking one of the early historic double eagles from this perennially popular western mint. It is among the finer certified of only 100 to 135 coins believed to exist in EF and AU grades. In 2022, a PCGS coin of the same grade with a CAC sticker sold in auction for \$132,000. NGC Price guide...\$100,000. CDN Collectors Price Guide...\$96,000.

8967	1873 \$20 Liberty Double Eagle, Open 3 -- PCGS MS63	\$5,700	1	An extraordinary Type II Liberty Head double eagle irrespective of date or issuing mint. Displaying full mint luster, both sides are enhanced by vivid, lovely rose-gold color. The strike is sharp to full throughout, the surfaces exceptionally smooth for both the type and issue. this coin from the Fairmont Collection is a delight to behold and would do nicely in either a high grade type set or advanced gold cabinet. In 2012, a PCGS coin with the same grade and a CAC sticker sold for \$18,400. PCGS Price Guide...\$7,250.
8967	1873 \$20 Liberty Double Eagle, Open 3 -- PCGS MS64	\$24,000	1	None numerically finer at PCGS. An extraordinary Type II Liberty Head double eagle irrespective of date or issuing mint. Dressed in full mint luster, both sides are enhanced by vivid color in lovely pinkish-gold. The strike is sharp to full throughout. With 1,500 to 2,500 or more examples extant, the 1873 Open 3 is one of the most readily obtainable issues of its design type in Mint State. Many of the Uncirculated pieces were repatriated from foreign bank hoards in the decades following World War II. This is still a conditionally challenging issue, however, the vast majority of examples confined to the MS-60 to MS-62 grade range. In 2013, a PCGS coin in the same grade with A CAC sticker sold for \$41,125. PCGS Price Guide...\$31,500.
8968	1873-CC Liberty -- PCGS AU58 CAC	\$32,500	1	Pop 18 with 7 finer at PCGS. This is a premium quality example in all regards. Nearly Mint State coins such as the current coin are scarce, and finer pieces in full Mint State are decidedly rare. This example displays a bold strike and shows only minor discernible wear, with warm peach-gold surfaces and mainly light abrasions. In 2010, a PCGS coin without a CAC sticker sold in auction for \$48,875. PCGS Price Guide for a Non-CAC AU58...\$45,000. In MS60...\$75,000.
8969	1873-S \$20 Liberty Double Eagle, Closed 3 -- PCGS MS63	\$18,500	1	Pop 7 with None Finer. The 1873-S Closed 3 is a conditionally challenging Type II Double Eagle. DID YOU KNOW: The 3 punch was modified partway through the year in 1873 because Chief Coiner Archibald Loudon Snowden thought the old Closed 3 looked too much like an 8. Before the dies with the new Open 3 in the date reached the San Francisco Mint, a substantial mintage of Liberty double eagles had been struck using the dies with the Closed 3. As a result, the Closed 3 variety is seen more often today. Like most Type Two double eagles, the 1873-S is available in circulated grades, but Mint State examples are elusive. In 2011, a PCGS coin of the same grade sold for \$27,888. PCGS Price Guide...\$37,500.

8972	1874-S \$20 Liberty -- PCGS MS61	\$4,950	1	Nice fresh and original. From the Fairmont Collection. Did you know. In 1874 the new San Francisco Mint opened, a modern facility with state of the art equipment, far finer than the building it replaced. From that point forward, until 1937, this was the main center for coinage as well as storage of coins on the West Coast. In 1937 it was replaced by a new structure that is still in use today. In 2024, a PCGS coin sold in auction for \$5,280.
8973	1875 \$20 Liberty -- PCGS MS63	\$9,750	1	Only 6 finer at PCGS. the 1875 Liberty double eagle claims an adequate mintage of 295,740 pieces, but the issue becomes scarce at the MS63 grade level, and finer coins are virtually unobtainable. 8973	1875 \$20 Liberty -- PCGS MS64	\$59,500	1	Pop 6 with none finer at PCGS and one finer at NGC. This is a remarkable condition rarity for both the type and issue. The 1883-CC is a relatively high mintage Carson City double eagle with 59,962 pieces produced. And although some 1,775 to 2,050 coins are still extant in all grades, it is surprisingly scarce in mint condition with only 75-90 examples believed to exist today. These are well struck with an appealing overall look. In 2022, an NGC coin sold in auction for \$26,400. A PCGS coin with a CAC sticker sold in auction for \$30,550. PCGS Price Guide...\$28,500. 9003	1885 \$20 Liberty -- NGC AU58	\$67,500	1	Pop 13 with 18 Finer at NGC. For most of the 1880s, the Philadelphia Mint concentrated much of its resources on producing the enormous number of Morgan dollars mandated by the Bland-Allison Act of 1878. The Philadelphia facility largely left the production of double eagles to the San Francisco Mint during this decade, and small double eagle mintages were the rule, rather than the exception, during this time period. Accordingly, only 751 Liberty double eagles were struck at the Philadelphia Mint in 1885. It is estimated that about 100 are known to exist. NGC Price Guide...\$85,000.

9004	1885-CC Liberty -- PCGS MS62 CAC	\$89,500	1	CAC Stickered Pop 5 with one finer. PCGS Pop 16 with 2 finer. Perhaps surprisingly for a low mintage issue, the 1885-CC is generally not a well produced coin. The typical example is softly defined in isolated areas on the obverse, and luster on high grade survivors tends to be a bit subdued with a granular texture. A refreshing departure from the norm, this example is overall sharply defined on the obverse with the reverse sharp throughout. All hair curls on Liberty's portrait are crisply delineated, and the centrils on all stars are full. This is easily one of the finest and most visually appealing 1885-CC double eagles that we have seen. In 2022, a similar PCGS Coin with a CAC Sticker sold in auction for \$84,000. 9012	1889-S \$20 Liberty -- NGC MS65	\$29,500	1	Tied for finest. None finer at either service. Frosty and unblemished. This one is from the Saddle Ridge Hoard. The incredible California Saddle Ridge Hoard yielded more than 1,400 gold coins including over 350 examples of the 1889-S double eagle. A half dozen of those coins are currently among the finest certified. This is a magnificent twenty that actually looks even finer than the stated grade, exhibiting smooth, virtually unblemished surfaces. Mint luster rolls across each side and is noticeably frosted. The strike is sharp in all areas. This would make a nearly unimprovable example of the Type Three design. NGC Price Guide...\$35,000

9014	1890-CC \$20 Liberty -- PCGS MS60	\$8,900	1	The Carson City Mint produced just 30,945 double eagles in 1889. David W. Akers, writing in 1982, characterized Mint State examples as "very scarce," and although some specimens were undoubtedly plucked from overseas gold reserves by numismatists in subsequent years, the estimated number of Uncirculated survivors remains on the low side. PCGS price Guide...\$20,000
9014	1890-CC \$20 Liberty -- PCGS/NGC MS61	\$12,500	9	This is a popular date Carson City double eagle, a pleasing Mint State coin from this old wild west mint. These large gold coins bearing the CC mintmark evoke images from the classic western films of gun slingers, card games, saloons, etc. PCGS Price Guide...\$15,000
9014	1890-CC \$20 Liberty -- NGC MS62	\$17,500	2	Only one numerically finer at NGC. The mintage for this popular issue is 91,209 pieces, up more than 60,000 coins from the preceding year's double eagle production at the Carson City Mint. Most pieces are in notably lower grades, usually EF or AU. NGC Price Guide...\$30,000.
9017	1891-CC \$20 Liberty -- NGC MS60	\$34,000	1	Conditionally Scarce in Any Mint State. Research indicates only about 5.5 to 6.5 percent of the 5,000-piece 1891-CC mintage has survived, according to <a href="#">The Confident Carson City Coin Collector</a> . Some of those coins are European repatriates, although much of the mintage circulated in the West. This is a Mint State example that has retained much original eye appeal and pleasing orange-gold color. All 1891-CC examples remain in strong demand among Carson City specialists. Legions of double eagle collectors consider this to be the key date among Type Three CC twenties. In 2022, a NGC coin in the same grade sold in auction for \$52,800. NGC Price Guide...\$67,500.
9017	1891-CC \$20 Liberty -- NGC MS61	\$36,500	1	Pop 19 with 10 finer at NGC. Mintage...only 5,000. This MS60 example is well-struck with bright cartwheel mint luster that radiates on both sides, supporting its Mint State grade. In 2022, a PCGS coin in the same grade sold in auction for \$72,000. NGC Price Guide...\$77,500.
9018	1891-S \$20 Liberty -- NGC MS64	\$6,000	1	Only 2 Finer at NGC. Prohibitively Rare any finer. Nice original luster rolls across each side, complementing sharply struck design elements. NGC Price Guide...\$6800

9020	1892-CC \$20 Liberty -- PCGS/NGC MS61	\$13,300	7	Nice Bright and Lustrous. This incredible Carson City Mint condition rarity displays dominant golden-apricot color overall. Bountiful mint luster dominates the in hand appearance, and sharp striking detail is also very much in evidence. PCGS Price Guide...\$16,500
9023	1893-CC \$20 Liberty -- PCGS AU58	\$11,700	1	Despite the low mintage (only 18,402 pieces), the 1893-CC twenty dollar gold ranks among the most-available of all Carson City double eagles, especially in near-Mint and Mint State grades. PCGS Price Guide...\$16,000
9023	1893-CC \$20 Liberty -- PCGS MS61	\$15,750	2	Historic Final year. The Carson City Mint's final double eagle issue has a mintage of just 18,402 pieces. The institution had struggled against politics and other factors since its opening in 1870, but time had finally run out in 1893. Perhaps not coincidentally, the nearby Comstock Lode also largely dried up by 1893, as the heady days of gold mining at the site rapidly came to an end. PCGS Price Guide...\$21,000
9026	1894-S \$20 Liberty -- NGC MS64+	\$7,250	1	Pop 8 with 8 finer at NGC. A sharp strike accompanies lustrous and smooth orange-gold surfaces for excellent eye appeal on this conditionally rare Double Eagle. In 2004 a similar coin at PCGS sold in auction for \$9,200. NGC Price Guide...\$6,500. CDN Greysheet Bid for an MS65...\$26,000
9027	1895 \$20 Liberty -- PCGS MS64+ CAC	\$8,900	1	PCGS Price Guide a touch higher In MS65...\$22,500. The Philadelphia Mint struck more than 1.1 million double eagles in 1895, ensuring the availability of this issue for modern collectors. Nonetheless, PCGS reports only 11 coins numerically finer than this piece. This coin stands apart from its peers with a PLUS/CAC endorsement.
9030	1896-S \$20 Liberty -- PCGS MS64	\$4,500	1	Only three finer. From the Fairmont Collection. PCGS Price Guide...\$4,000.
9031	1897 \$20 Liberty -- PCGS MS64+	\$6,900	1	Fairmont Collection. PCGS Price Guide in MS64 (Non-CAC)...\$4,750. In MS65...\$27,500.
9036	1899-S \$20 Liberty -- PCGS MS64	\$4,200	1	Only 3 finer at PCGS. Lovely golden-orange color mingles with lively mint luster, and both sides are exceptionally attractive even for the impressive Choice Mint State grade. Sharply to fully struck and nicely preserved in all regards. PCGS Price Guide...\$5,250.
9041	1902 \$20 Liberty-- NGC MS64	\$27,500	1	Pop 6 with 1 finer at NGC. Remarkably Rare at This Grade. Surprisingly, the 1902 is one of the lowest-mintage double eagles of the 20th century (31,140 coins). It is the rarest Liberty Head twenty struck in 1900s, and when found it usually grades ranging from AU to lower Mint State. Choice Uncirculated and finer examples are extremely rare. This near-Gem is sharply struck, unusual for this issue that is often seen weak on the stars, hair strands, and eagle's plumage. Both sides display frosty orange-gold luster, displaying occasional splashes of faint of lemon-yellow accents illuminated by flashy mint luster. In 2018, a comparable PCGS coin with a CAC sticker sold for \$54,000. NGC Price Guide...\$40,000
9048	1905-S \$20 Liberty -- PCGS MS64	\$4,900	1	Only 14 finer at PCGS. Gorgeous rose-gold patina blends with lively mint luster on both sides of this sharply struck, nicely preserved example. In 2020, a PCGS coin in the same grade sold for a record \$10,800. PCGS Price Guide...\$6,000.

9136	1907 \$20 Saint-Gaudens High Relief, Flat Edge -- PCGS MS63	\$26,500	1	This Select Flat Rim coin displays rich orange-gold patina over satiny mint luster, with no bothersome abrasions for the grade. The Flat Rim 1907 High Relief double eagles attempted to resolve a striking problem with Saint-Gaudens models, where, as a result of the numerous die impressions each coin was subjected to, in combination with the segmented collar necessary to produced the relief edge devices, metal was being forced into the space between the die faces and the collar, creating a thin fin of metal around the edge of the coin. A planchet upset change was made to reduce the effect, and it generally worked, allowing the coins to stack more properly. However, the laborious task of striking the High Relief design forced the Mint to cease its production after only 12,367 pieces were struck. PCGS Price Guide...\$32,500.
9136	1907 \$20 Saint-Gaudens High Relief, Flat Edge -- PCGS MS66	\$120,000	1	Only 14 finer . Mintage unknown. This extraordinary Premium Gem has exceptional aesthetic appeal. The surfaces are satiny and lustrous, with brilliant light to medium yellow color. Pristine and exceptional. This piece has few peers for the grade. It has bold design definition, exactly as Augustus Saint-Gaudens envisioned. Struck later in the production period, as seen by the near absence of a wire rim, this is a magnificent and High Relief twenty. Earlier this year, a wire edge NGC coin of the same grade sold in auction for \$144,000. PCGS Price Guide...\$125,000.
9141	1907 \$20 Saint-Gaudens -- PCGS MS64	\$3,500	2	PCGS Price guide...\$4,250.
9141	1907 \$20 Saint-Gaudens -- NGC MS66+	\$16,500	1	Only 8 numerically finer at NGC. Excellent First-Year Type Coin. Augustus Saint-Gaudens iconic design for the double eagle was introduced in 1907 and the Philadelphia Mint struck 361,667 examples of the Arabic Numerals design for circulation. The issue was widely saved for its novelty value. In 2022, a PCGS coin in the same grade with a CAC Sticker sold in auction for \$43,475. Greysheet Bid in MS67...\$80,000. PCGS Price Guide...\$27,500.
9147	1908 With Motto \$20 Saint Gaudens -- PCGS MS63	\$3,400	2	PCGS Price Guide...\$4,250.
9147	1908-D With Motto \$20 Saint Gaudens -- PCGS MS65	\$7,500	1	Older powder blue PCGS Holder. Long Rays Obverse. The design of the double eagle was modified in 1908 to include the motto IN GOD WE TRUST on the reverse, creating a popular new design type for collectors. This impressive Gem example is sharply detailed throughout, with well-preserved orange-gold surfaces that radiate vibrant mint luster from both sides. PCGS Price Guide...\$8,500.
9149	1908-S \$20 Saint Gaudens -- NGC AU58	\$9,500	1	Low-Mintage Inaugural S-Mint Saint. With a 22,000-piece production, the 1908-S is the lowest-mintage With Motto double eagle in the Saint-Gaudens series. Nearly the entire mintage was released into circulation, with XF and AU coins dominating the population reports. It's estimated only 1,500 pieces survive. This medium orange-gold example displays yellow-gold highlights and traces of mint luster. In 2022, an NGC CAC coin sold for \$11,100. NGC Price Guide...\$11,000.
9150	1909 \$20 Saint Gaudens -- PCGS MS64	\$11,000	1	From a mintage of 161,215 --Only 25 finer at PCGS. Older powder blue PCGS Holder. The 1909 Saint-Gaudens double eagle is almost evenly divided between overdate coins and non-overdate. Both varieties are necessary for a complete Guide Book collection, and both are conditionally challenging in any grade finer than MS63. PCGS Price Guide...\$16,000.
9151	1909/8 \$20 Saint-Gaudens -- PCGS MS63	\$5,900	2	A rich golden toned and original example of this popular overdate. Well struck example with a satiny frost and pleasing eye appeal for the assigned grade. PCGS Price Guide...\$7,500.
9151	1909/8 \$20 Saint-Gaudens -- PCGS MS64	\$11,500	2	Powder Blue Label. Both side of this lovely Choice Uncirculated double eagle exhibit vivid rose-orange color that provides strong eye appeal. The luster is full and frosty and the strike is impressively sharp overall. Uncommonly well preserved for this overdate variety and worthy of an advanced double eagle cabinet. PCGS Price Guide...\$13,000.
9151	1909/8 \$20 Saint-Gaudens -- NGC MS66	\$125,000	1	Pop 6 with none numerically finer at NGC. This coin will please even the most particular collector of Saint-Gaudens twenties. One does not often encounter a coin of this caliber. The 1909/8 was the only overdate produced in the Saint Gaudens double eagle series. It was first discovered in 1910, and written up in the June 1910 issue of The Numismatist. Research tells us that sometime in late 1908 the die sinkers prepared working dies in the usual manner. This required several strikes (more like "squeezes") from a hydraulic press of the working hub to produce a complete working die. This process occurred over several days, and for a coin the diameter of a double eagle, may have required a total of four or more strikes to complete a single working die. Evidently, one of the die sinkers accidentally got his hands on a 1908 hub and used that to make some impressions. He then switched back to the correct 1909 hub and completed the working die. In 2022, a PCGS coin with a CAC sticker sold in auction for a record \$336,000!
9153	1909-S \$20 Saint-Gaudens -- PCGS MS65	\$6,250	1	This sharply struck Saint-Gaudens twenty displays blazing mint luster. The 1909-S is almost always seen in lower grades than this gleaming MS65 coin. The mintage was high -- more than 2.7 million pieces were struck -- but an unknown number of coins fell victim to the 1930s Gold Act. Others were exported, with a good portion of those coins returning to U.S. soil in the last few decades. In 2010, a PCGS CAC coin sold in auction for \$18,400.
9154	1910 \$20 Saint Gaudens -- PCGS MS63	\$3,050	7	Nice Fresh Better Date Saint
9155	1910-D \$20 Saint-Gaudens -- NGC MS66	\$10,900	1	Only 2 Finer. This lustrous and virtually unabraded example displays orange and peach-gold coloration and a strong Denver Mint strike. NGC Price Guide...\$14,500
9156	1910-S \$20 Saint-Gaudens -- NGC MS63	\$2,700	1	Nice fresh, bright and original.
9156	1910-S \$20 Saint-Gaudens -- PCGS MS64	\$3,500	1	PCGS powder blue label. Nice fresh and original.

9157	1911 \$20 Saint Gaudens -- NGC MS65	\$13,700	1	Uniform frosty texture blankets the surfaces of this captivating Gem. Vivid orange-apricot coloration accents the intensely lustrous complexion. An important survivor from this underrated issue, and worthy of the strongest bids, as such. In 2016, PCGS sold a coin of the same date and grade for in auction for \$37,600. PCGS Price Guide...\$25,000
145010 (9158)	1911-D/D \$20 Saint-Gaudens -- Repunched Mintmark -- NGC MS66+	\$12,500	1	Delightful golden-honey surfaces are fully struck with intense frosty luster and a tinge of pale pink patina. Outstanding and conditionally rare premium Gem quality for this popular RPM variety, the D mintmark boldly repunched to the right. NGC Price Guide for this variety in a slightly higher grade of MS67...\$40,000.
9160	1912 \$20 Saint-Gaudens -- PCGS MS65	\$23,000	1	Only 10 finer at PCGS. Research suggests that as many as 115,000 double eagles of this date went to Europe, and perhaps 15,000 more pieces were shipped to Central and South America. Trade coins -- particularly those shipped to Europe -- were frequently counted and/or moved in bags, causing the soft surfaces to become heavily bagmarked over time. For this reason, the 1912 double eagle is a rarity in Gem condition and only a few finer coins are known. This piece displays remarkably clean surfaces and lovely wheat-gold cartwheel luster. The design elements are also well-struck, completing the eye appeal. In 2013, a comparable PCGS coin with a CAC sticker sold in auction for \$32,400. PCGS Price Guide...\$31,500.
9161	1913 \$20 Saint-Gaudens -- NGC MS65	\$42,500	1	Only 1 numerically finer at NGC. All but about 500 of the 1913 Saint-Gaudens double eagles come from foreign holdings, where they were abused in banking transactions, storage, counting, and transport. It is estimated that 5,700 pieces survive in all grades combined. The 1913 is not only challenging in an absolute sense, it is a well-known condition rarity that is seldom seen in Gem Uncirculated or finer grades. It is by far the rarest P-mint date of the early series -- far scarcer than any other Philadelphia twenty from 1908 through 1915. This Gem example offers variegated deep-orange and yellow-gold hues. The frosted surfaces are highly lustrous and is well struck. NGC Price Guide...\$58,500.
9165	1914-D \$20 Saint-Gaudens -- PCGS MS64	\$3,150	12	Nice Fresh Better Date Saints
9166	1914-S \$20 Saint-Gaudens -- PCGS MS64	\$3,050	8	Nice Fresh Better Date Saints
9169	1916-S \$20 Saint Gaudens -- ICG MS65	\$3,500	1	Nice Fresh Better Date Saint
9169	1916-S \$20 Saint-Gaudens -- PCGS MS66	\$12,500	1	None Numerically Finer at PCGS. Old Powder Blue Label. This is a high-end 1916-S survivor with luminous mint luster. Only the San Francisco Mint struck double eagles in 1916, and no examples of this denomination were again produced at any facility until 1920. A PCGS coin in the same grade with a CAC sticker sold for \$18,500. PCGS Price Guide...\$14,500.
9169	1916-S \$20 Saint-Gaudens -- NGC MS66+	\$19,500	1	Only 4 Finer at NGC. Remarkable preservation. The 1916-S was the final double eagle issue until 1920, due to World War I. Along with the 1930-S, it is one of two San Francisco issues without a Philadelphia counterpart. The 1916-S was saved in bag quantity but becomes very rare in the MS66+ grade. The lustrous peach-gold surfaces are well struck. In 2023, a Comparable PCGS coin with a CAC sticker sold in auction for \$108,000. NGC Price Guide in MS66 (Non-Plus)...\$12,500. In MS67...\$40,000.
9171	1920-S \$20 Saint-Gaudens -- NGC MS62	\$87,500	1	Only 17 numerically finer at NGC. This Saint is a prime condition and absolute rarity. The 1920-S is one of the many double eagle issues from the 1920s and 1930s that was melted in quantity in 1937. While 558,000 coins were struck, almost all of them remained in federal vaults until destroyed on government order. Only 100 to 150 examples are believed extant in all grades -- a survival rate of 0.027% that ranks the 1920-S as the fifth rarest Saint-Gaudens double eagle in terms of total number of survivors. This MS62 example is well-preserved for the grade, with only scattered tiny marks seen under magnification. There are no individually heavy contacts on either side. Lustrous and attractive wheat-gold color is evenly dispersed across both sides, while the strike is reasonably sharp. NGC Price Guide...\$87,500.
9177	1924 Saint-Gaudens Double Eagle -- NGC MS67	\$11,000	2	Only 3 Finer between both services. Simply outstanding quality for this otherwise readily obtainable double eagle issue. The surfaces are highly lustrous with a smooth, satiny texture that borders on pristine. Rich golden-rose and orange color throughout, both sides are completely original and deliver outstanding eye appeal. Full striking detail with razor sharp design elements adds to the desirability of this dazzling Superb Gem. In 2022, a PCGS coin with a CAC sticker sold in auction for \$38,400. NGC Price Guide...\$15,000.
9179	1924-S \$20 Saint-Gaudens -- NGC MS64	\$24,000	1	This attractive Choice specimen exhibits sharply detailed design elements and lustrous orange-gold surfaces that show only scattered, minor signs of contact. Overall eye appeal is outstanding. NGC has graded 24 numerically finer examples. The 1924-S Saint-Gaudens double eagle claims a substantial mintage of more than 2.9 million pieces, but the issue is somewhat scarce at the MS64 grade level, and finer coins are rare. Most of the mintage was held in government storage until the Gold Recall of 1933 took effect, and subsequently melted into gold bars and stored in the Fort Knox Bullion Repository. The 1924-S was considered a great rarity in the series in the 1940s. Luckily, some coins had been used to settle large accounts in foreign trade and were later repatriated from European holdings, beginning in the 1950s, increasing the available supply for collectors. In 2028, a PCGS coin of the same date and grade sold for \$38,400. NGC Price Guide...\$30,000
9181	1925-D Saint-Gaudens -- NGC MS64	\$25,500	2	This is a beautiful 1925-D double eagle that displays original deep rose-gold and lighter powder blue colors. The strike is sharp throughout, and the surfaces are pleasingly smooth overall. It is a lustrous, frosty near-Gem that is sure to appeal to even the most discerning gold enthusiast. NGC Price Guide...\$25,000.
9182	1925-S Saint-Gaudens -- NGC MS61	\$10,500	1	This 1925-S double eagle displays a frosty mint luster that boosts the eye appeal. Greysheet...\$8,000. NGC Price Guide...\$11,500.

9182	1925-S Saint-Gaudens -- PCGS MS63	\$15,750	1	Older PCGS powder blue Label. The 1925-S double eagle had a mintage of more than 3.7 million coins, although the majority of these pieces were melted in the 1930s. Perhaps only 1,500 pieces survive in all grades. This Select Mint State example displays satiny orange-gold mint luster and well-struck design elements. PCGS Price Guide...\$20,000.
9183	1926 Saint-Gaudens -- PCGSMS66+	\$14,700	2	Only 7 finer at PCGS. The 1926 double eagle is plentiful in grades through MS66, with only seven Superb Gems finer at PCGS, making the current example among the finest pieces typically available to collectors. A bold strike and satiny gold luster complement a radiant cartwheel effect. In 2023, a PCGS coin in a slightly higher grade of MS67 sold in auction for \$52,800.
9184	1926-D Saint Gaudens -- PCGS MS63	\$29,500	1	The 1926-D Saint-Gaudens double eagle was once a great rarity in the series but a small number of coins were found in European holdings, beginning in the 1950s, augmenting the small supply of coins available to present-day collectors. The 1926-D is still a very scarce issue, and it is usually overlooked and undervalued today, outside of series specialists. The present coin is an attractive Select Uncirculated example, with vivid orange-gold surfaces showing rose highlights and vibrant mint luster on both sides. In 2006, a comparable PCGS coin sold in auction for \$40,250. The design elements are well-detailed. PCGS Price Guide...\$40,000.
9185	1926-S Double Eagle -- NGC MS64+	\$14,700	1	The 1926-S is a better date in high grade, much scarcer than its mintage of more than 2 million coins would suggest. A large number of coins were melted under Roosevelt's Gold Recall order in the 1930s. This Plus-graded Choice example displays satiny peach-gold mint luster and is sharply struck overall. NGC Price Guide in MS64 Plus...\$17,000. In MS65...\$40,000.
9186	1927 Saint Gaudens -- NGC MS66+	\$6,900	1	Here is an incredibly well preserved and attractive example of this classic 20th century gold type. Lustrous with a frosty finish, both sides reveal swirling cartwheel visual effects as the coin rotates under a light. Greysheet Bid in MS67...\$15,000. NGC Price Guide in MS67...\$22,500
9189	1928 Saint Gaudens -- NGC MS66+	\$6,900	1	Sharply struck with smooth, frosty luster, both sides also display a lovely blend of orange-rose and medium gold. Greysheet Bid in MS67...\$12,000. NGC Price Guide in MS67...\$20,000

9222	1900 Lafayette Dollar -- NGC MS65	\$4,950	1	The Lafayette dollar is popular as the only silver dollar in the classic commemorative series. This Gem example displays satiny luster and a bold strike, with mottled olive-gold, amber, and russet toning over each side. Finer pieces are scarce. NGC Price Guide...\$6,150.
9222	1900 Lafayette Dollar -- NGC MS67	\$49,500	1	Pop 10. None Finer. Each side of this piece possesses warm, radiant luster. On the obverse, amber-russet toning with a touch of red covers much of the periphery, while the center is predominantly silver-gray with small, scattered flecks of golden-tan. The reverse rims have similar wheat patina, though the interior is mostly blue-green with a zone of rose-tinged gray above the horse. A simply exquisite piece that is sure to appeal to the commemorative connoisseur. Great price guide comp, too! NGC Price Guide...\$80,000. CDN Collectors Price Guide...\$60,000
9224	1921 Alabama Half Dollar-- NGC MS67	\$7,900	1	None Numerically Finer at either service. Although the Alabama Statehood centennial occurred in 1919, Congress did not authorize the commemorative half dollar for this occasion until 1920, and the issue was not struck until 1921. As well preserved and attractive as any example of this conditionally challenging design type available to today's discerning numismatists. Greysheet Bid...\$12,000. NGC Price Guide...\$12,500.
9296	1892 Columbian Half Dollar -- NGC MS67	\$2,950	1	Nicely toned.

9305	1936 Gettysburg Half Dollar -- PCGS MS67+	\$3,500	2	Only 6 finer at PCGS. Very lightly toned. PCGS Price Guide in 67 plus...\$5,500. In 68...\$25,500.
9312	1935 Hudson Half Dollar -- NGC MS67	\$4,900	2	None Finer at either service. One of the scarcer and more conditionally challenging classic commemorative silver issues, just 10,000 1935 Hudson Sesquicentennial coins were struck for distribution, plus an additional eight pieces for Assay purposes. Most survivors grade no finer than MS-64, and the present example is especially nice. A find for the discerning specialist. Great Value when comparing to the NGC Price Guide...\$8,950.
9330	1921 Missouri Half Dollar -- NGC MS66	\$3,800	1	Only 7 numerically finer at NGC. An exquisite Gem to represent this challenging issue, both sides are fully lustrous and softly frosted in texture. NGC Price Guide...\$6,550.

11420	1839 Half Dollar In Bronze, J-98 Restrike -- PCGS PR65BN	\$26,800	1	Pop 2. None Finer. Mintage unknown. Ex: Bass-Simpson. This piece is a spectacular Gem, with razor-sharp definition on all design elements. The well-preserved surfaces are attractively toned in vivid shades of green, orange, and amber, with moderately reflective fields underneath. Overall eye appeal is outstanding. ON THE OBERVERSE: Liberty wears a coronet inscribed LIBERTY with her hair tied at the back of her head. The backward or right facing Liberty head design is similar to the one appearing on the 1839 half eagles and eagles. The date, 1839, appears below the bust with 13 stars equally spaced along the border. ON THE REVERSE: is the regular issue No Motto half dollar design with Large Letters as used from 1842 to 1853 and from 1856 to 1866. Struck in bronze with a reeded edge.
12020	1859 Gold Dollar, J-256 -- PCGS PR64BN	\$6,750	1	Pop 3 with none finer. Ex: Simpson. The obverse is similar to that used on the regular issue 1859 gold dollar, but the letters are slightly taller. The reverse is also similar to the regular issue, but the letters in DOLLAR are taller. Struck in copper with a reeded edge.

72099	1882 Shield Nickel -- PCGS PR63RB	\$3,950	1	Mintage Unknown. Obv: Very similar to that of the regular-issue Shield nickel design of 1882, although without the ornamental ball at the base of the shield. Rev: The same design that the Mint used to strike regular-issue 1882 Shield nickels. Blended reddish-orange color and glossy brown iridescence provide strong eye appeal for this historic piece.
511836	(1999) '1759' Martha Washington Dollar, J-2185 -- NGC MS66	\$3,950	1	Mintage Unknown. The Martha Washington design, previously used to test clad coinage circa 1965, was revived in 1999 to test "golden" alloys for the pending Sacagawea dollar. Struck in manganese-brass-coated copper-clad metal with a plain edge. In a Mike Castle signature holder. Lustrous and sharply struck. No Price Guide Information.

9999	1814 Great Britain BHM-844 Silver Indian Peace Medal -- NGC UNC Details	\$13,900	1	Ex. John J. Ford, Jr. 1814 George III Indian Peace Medal. Silver. First Size. Adams-12.1. 75.5 mm. 1871.1 grains. Lovely medium gray silver with soft blue-green, rose and gold toning on both sides that adds considerably to the visual appeal. Clearly an issued medal, but one that saw very little actual wear. This was the largest of the 1814-dated medals produced for award to Native Americans in the later days of the War of 1812. The British relied heavily upon Native Americans in their war effort. Distribution of medals as markers of allegiance was rampant, so much so (as related by Adams), a Captain Bulger, Commander at Green Bay, wrote in 1815 that "formerly a chief would have parted with his life rather than his medal. Missing the original suspension hanger, leaving behind the piercing at 12 o'clock that is on all issued medals, so the "holed" designation from NGC really does not make sense as a grading qualifier on this, or any medal like it. This is exactly how they were issued (with a hanger), and this is a particularly attractive example.
