3762206	587	1779 Rhode Island Brass Token - Wreath Below Ship - NGC MS63	\$7,000	Pop 1. None Finer At NGC. Mintage Unknown. The Wreath Below Ship variety was the final issue of this popular token. This handsome Mint State piece has plenty of original antique gold color beneath an overlay of mottled gray-brown patina. Both sides of this piece are equally well defined with universally bold striking detail. Satiny in texture with an overall smooth appearance. Lustrous greenish-yellow surfaces. MORE ABOUT THIS PIECE: The obverse of Rhode Island Ship medals depict the flagship of British Admiral Lord Richard Howe and is anchored with the peripheral legend DE ADMIRALS FLAG van ADMIRAL HOWE 1779. The reverse shows Aquidneck island as the central motif with three warships to the left, about two dozen troops on the island, and soldiers fleeing in thirteen small boats to the right. The peripheral legend reads D'vlugtende AMERICAAN ENvan RHODE YLAND Augt 1778. PCGS Price Guide...\$8000. No NGC price Guide Information.

1914SNickel	3926	1914-S Buffalo Nickel -- PCGS MS66 CAC	\$9,000	Only 4 Finer. Well deserving of the CAC Sticker. Delicate silver-apricot iridescence blends with soft satin luster on both sides of this charming Gem example. The strike is impressively sharp with most design elements fully rendered and crisp. A mintage of 3.47 million pieces is limited by Buffalo Nickel standards, thus confirming the 1914-S as a semi-key issue in all grades. Most survivors grade no finer than MS-64, and this issue is rare at and above the MS-66 level. NGC Price Guide in NGC 66...\$6000. In MS67...\$18,500.
1919DNickel	3942	1919-D Buffalo Nickel -- NGC MS64	\$1,900	A crisply impressive, overall sharply defined example dressed in bold copper-gray patina. Many numismatic experts rank the 1919-D alongside the 1920-D as the rarest Denver Mint Buffalo nickel in fully struck. NGC Price Guide...\$2400.
4397401	3958	1926-D Buffalo Nickel -- NGC MS66	\$8,500	Pop 14. Only five finer at NGC. Sharply Detailed and Smooth Surfaces. The 1926-D is not especially rare until one reaches for an example in Gem or finer condition. Then the situation changes dramatically with the price tripling from MS64 to MS65, then doubling again from MS65 to MS66. This is a sharp example and the surfaces are exceptionally clean overall. The surfaces are brilliant. NGC Price Guide...\$9,000.

BustDime	38611	1805 Draped Bust Half Dime -- NGC AU58	\$29,500	Pop 2. None Finer. LM-1, the only known dies. Rarity-4. This is a remarkable near-Mint quality example of this scarce and conditionally challenging early half dime. Satiny in texture and impressively smooth, both sides are warmly toned in silver-rose and light steel patina. Vivid multicolored undertones include reddish-pink, champagne-gold and powder blue. The strike is typical for this challenging die pairing. The strike is appreciably bold and overall design is fully appreciable. The final year of issue for the Draped Bust design type and a single die marriage issue, the 1805 is also the last half dime produced by the United States Mint prior to 1829. The generally accepted mintage for this issue is 15,600 pieces, a total that was quickly reduced by commercial use. No more than 2% of the mintage is thought to have survived to the present time. The average APR over the past 20 Years for an AU58 is \$34,890. CDN Greysheet Bid...\$35,000. NGC Price Guide...\$51K!
4467901	4317	1838 No Drapery Half Dime -- NGC MS66	\$1,950	This attractive mark-free Premium Gem boasts a rainbow of colors with about half the obverse balanced in silvery luster and the reverse surrounded colorful tones around the border of a lustrous white center. NGC Price Guide...\$3,250.
4061001	4332	1843 Seated Liberty Half Dime -- NGC MS68	\$8,900	Pop 1. None Finer. The present boldly struck Superb Gem exhibits vibrant rose-red, cobalt-blue, and gunmetal-gray periphery toning on the reverse. The obverse is dappled in medium navy-blue and magenta shades. An interesting triangle-shaped strike-through (as coined) is noted on the obverse rim near 6 o'clock. No NGC Price Guide Information available. CDN Price Guide for a common Date...\$10,000.
3988513	4438	1859 Seated Liberty Half Dime -- NGC PF65	\$1,950	Mintage...800. A needle-sharp Gem with smooth, glassy fields. Peach-gold, lavender, and ocean-blue toning graces both sides. NGC Price Guide...\$2850

4078203	4679	1876 Seated Dime -- NGC MS67	\$1,950	Only one finer known at NGC. It's as good as it gets. Attractive rich and radiant luster on the obverse and mostly white reverse can be found on this Premium gem Seated Dime. Well struck and fully detailed. NGC Price Guide...\$2500.
1911 Dime	4857	1911 Barber Dime -- PCGS MS67 CAC	\$2,250	Only one finer at PCGS. An impressive Superb Gem Barber dime at many levels. The frosty surfaces present lively cartwheel luster, boldly struck devices, and a splash here and there of original dee charcoal patina. Laden with eye appeal and readily among the finest examples of the date extant in a PCGS holder. PCGS Price Guide...\$2250.
4153807	5076	1941 Mercury Dime -- PCGS PR65	\$155	Blazing White

SKU	PCGS #	Twenty Cent Pieces	Price	Description
4376606	5304	1876 Twenty Cent Piece - NGC PF65	\$6,250	Mintage...1,260. Originally Toned, Bold Eye Appeal. The "Centennial bump" in 1876 proof set sales did not meet expectations, so the Mint dealt with the excess by releasing unsold proofs into normal circulation. High-grade proofs that survive do so from a considerably smaller mintage than the 1,260 pieces reported by Mint records. This is a sharply struck twenty cent proof, with well-mirrored fields that display dappled tan-gold toning and blue border accents. NGC Price Guide...\$7,200.
SKU	PCGS #	Quarters (All Varieties)	Price	Description

4469601	5316	1807 Draped Bust Quarter -- NGC MS65	\$87,500	Pop 2. Only 2 Finer. This spectacular and colorful Gem is well defined around the peripheries and on the stars above the eagle's head. The Draped Bust Quarter represented the first series of quarter dollars struck within the United States. The series was produced with two distinct reverse designs, creating two different subtypes. The first subtype was issued for only a single year in 1796. After a gap in production, the second subtype was issued from 1804 to 1807. The second reverse design (used for this particular coin) was introduced in 1804 and used for the duration of the series. A heraldic eagle appears at center with its wings spread and a shield at its breast. The eagle's talons separately hold an olive branch and a bundle of arrows, and the eagle's beak holds a ribbon inscribed E PLURIBUS UNUM. NGC Price Guide...\$100,000
1854 Quarter	5432	1854 Liberty Seated Quarter -- PCGS MS64+ CAC	\$2,750	Conditionally rare. Second year of issue for the Arrows, No Motto Liberty Seated quarter. Exceptionally smooth and very well preserved, this impressive near-Gem exhibits full, frosty-textured luster. Sharply struck, with nicely toned gray and olive-russet toning on each side. A fully original coin. PCGS Price Guide in MS64...\$2500. In MS65...\$5500.
1858 Quarter	5445	1858 Liberty Seated Quarter -- PCGS MS65 CAC	\$3,100	This example is mostly brilliant with just a hint of pastel-lemon color on the obverse and smooth satin to softly frosted luster. The 1858 is challenging to find in Gem Mint State. PCGS Price Guide in MS65...\$2750. In MS66...\$5000.
4153103	5555	1859 Seated Liberty Quarter -- PCGS PR65	\$2,950	Pop 10 with 6 finer at PCGS. Mintage...800. The light gray surfaces of this spectacular Gem proof exhibit green-gold and blue toning on both sides. Sharply defined, this piece has fully mirrored fields that frame the lustrous devices, imparting slight contrast but is insufficient for a Cameo designation. From a mintage of 800 pieces in the second year of the Mint's commercial proof offerings. PCGS Price Guide...\$3,600.

1881 Half	6442	1881 Liberty Seated Half Dollar - Type 1 reverse -- PCGS PR65	\$2,250	Mintage...975. An originally and moderately toned specimen with iridescent multicolored undertones. Here is a gorgeous Gem quality coin, one of 975 Proofs struck for the date. PCGS Price Guide...\$3700.
3758302	6461	1892 Barber Half Dollar -- PCGS MS65	\$1,495	PCGS Price Guide...\$1850
370807	6476	1896-S Barber Half Dollar -- PCGS MS64	\$3,250	Like the 1896-S Barber quarter, this half dollar issue is a better date in the series. Examples are scarce but obtainable in near-Gem condition. Soft mint luster radiates beneath shades of deep steel-gray patina. PCGS Price Guide...\$5000.
4489103	6490	1901-O Barber Half Dollar -- NGC MS65	\$10,000	Pop 6. Only 4 Finer. The 1901-O Barber half dollar is seldom seen in any Mint State grade, but examples in Gem condition are especially scarce. This piece displays satiny luster with subtle reflectivity in the fields. Amber, violet, and blue border toning surrounds golden interiors. NGC Price Guide...\$11,000, CDN Retail Price Guide...\$13,000.
4489104	6500	1904-S Barber Half Dollar-- NGC MS65	\$27,500	Pop 1. Two Finer. Blazing white. A meager mintage of 553,038 Barber half dollars was accomplished at the San Francisco Mint in 1904. Most of the mintage circulated heavily in the regional economy and few high-quality examples were saved by contemporary collectors. As a result, the 1904-S is one of the most challenging issues in the Barber half dollar series, especially in high grade. This spectacular Gem exhibits sharply detailed design elements. The virtually pristine brilliant surfaces are lustrous and appealing. NGC Price Guide...\$38,500.
3762217	6502	1905-O Barber Half Dollar -- PCGS MS65 CAC	\$4,200	Pop 11 with only 10 Finer at PCGS. This CAC-endorsed Gem is well-preserved with light golden toning. Seldom do Mint State survivors of this challenging New Orleans Mint issue possess the above average striking quality and superior surface preservation of this piece. Detail on the obverse and reverse is universally full. Value priced when compared to the PCGS Price Guide comps shown below. PCGS Price Guide in MS65...\$4,500; in MS66...\$5,750
3988502	6502	1905-O Barber Half -- PCGS MS66	\$4,800	Pop 5. The 1905-O is surprisingly scarce in Mint State. Such coins, when encountered, typically grade MS62 to MS64. Premium Gems are very rare. The present Registry Set prize is well struck with lustrous, unmarked surfaces with rich apple-green and plum-red patination. PCGS Price Guide...\$6750.
<b>SKU</b>	<b>PCGS #</b>	<b>Silver Dollars (All Varieties)</b>	<b>Price</b>	<b>Description</b>
4467603	6865	1797 Draped Bust, Small Eagle Bust Dollar -- NGC AU53	\$14,900	10x6 Stars, Large Letters, B-3, BB-71. The 1797 Draped Bust dollar boasts the lowest reported mintage of the type, at a minuscule 7,776 pieces, with three die varieties known for the date. The present coin represents the BB-71 variety, with the obverse stars arranged in a 10x6 pattern. This was the only use of both the obverse and reverse dies. Only light wear shows on the bust shoulder and eagle's breast, but Liberty's curls and the leaves on the right side of the wreath show some incompleteness of detail, due to lapping. The pleasing surfaces are richly toned in shades of golden-brown and lavender-gray, with traces of original mint luster underneath. NGC Price Guide...\$17,500.
4377619	6873	1798 Dollar Large Eagle, Pointed 9, Wide Date - NGC XF40	\$3,350	Pop 3 with only 4 finer in this variety. The surfaces are deep gray with undertones of olive and rose.. The date is wide and the lowest curl of Liberty's hair is shaded in the interior, while the olive branch on the reverse has five small berries. This variety is somewhat scarce, with examples seldom seen above XF. NGC Price Guide...\$4750.
4063201	6878	1799 Draped Bust Dollar -- NGC MS61	\$24,500	Bowers Die State III-IV. A crisply struck and unworn example with noticeably prooflike fields. The medium gunmetal-gray surfaces reveal aquamarine borders and straw-gold centers when the piece is rotated beneath a light. The upper-right reverse displays moderate adjustment marks (as struck), prominent only on the cloud beneath the F in OF. Both sides are uncommonly free from abrasions. This piece ranks among the finest examples. NGC Price Guide...\$26,000.
4376613	6883	1799/8 15 Stars Reverse -- NGC MS63+	\$49,500	Bowers Die State III. The 1799/8 BB-141 variety is quickly distinguished by the overdate and the two star points extending from the reverse clouds at the left and right. This attractive piece exhibits ocean-blue, lavender, and golden-brown toning. It's well struck and satiny surfaces are predominantly smooth. The 15 Stars Reverse is thought to be an engraver's error, with 13 stars intended. Upon realizing his mistake, the engraver expanded the left and rightmost clouds in an attempt to efface the additional stars. But lower points of the errant stars remain, and this variety is sufficiently distinct to merit its own Guide Book listing. NGC Price guide...\$68,500.

4468607	8000	1878 Three Dollar Gold Piece -- NGC MS64	\$6,500	This is a radiant example of the 1878 three dollar gold piece, the most collectible issue in the series with a mintage of 82,304 coins. Both sides display flashy gold color with frosty surfaces that glisten when rotated. Well-struck and the devices are sharp and the fields noticeably well-preserved. CDN Collectors Price Guide...\$7950.
<b>SKU</b>	<b>PCGS #</b>	<b>\$5 Gold Half Eagles</b>	<b>Price</b>	<b>Description</b>
4468610	8101	1807 Capped Bust Left Half Eagle -- NGC MS63	\$19,500	Both sides of this early half eagle are frosty and brilliant with bright yellow surfaces. This is the first year of the new style of half eagle designed by the talented Mint Engraver John Reich. The obverse depicts a bust of Liberty facing left, wearing a soft cloth dress with a clasp on her shoulder and also wearing a cloth cap inscribed LIBERTY. The reverse shows a standing eagle clutching an olive branch in his right claw and three arrows in his left. NGC Price Guide...\$26,500.
4468611	8103	1808/7 Capped Bust Half Eagle -- NGC AU58	\$13,500	This specimen is quite nice, especially for the grade, with satiny soft luster. It's well struck and the stars are generally sharp and you will find plenty of mint luster in the protected areas. It's really a pleasing example of this rare variety. The mintage of the overdate is unknown as it was included in Mint reports among the total for 1808, which was 55,578 coins. Most "transition year" overdates (those made from dies left over from the previous year but having one digit modified, a cost-saving move on the Mint's part, back in 1808) are generally quite scarce because only one such die was typically used, until it wore out. CDN Collectors Price Guide....\$15,600.
4468612	8411	1905 Liberty Half Eagle -- NGC MS64	\$950	Nice fresh and original with satiny luster. CDN Collectors Price Guide...\$1130.

4468614	8564	1801 Capped Bust Eagle -- NGC MS61	\$25,000	This piece has bright surfaces on both sides, with generous luster. The usual die state with nine curious vertical "spines" (bold, straight, vertical, parallel die lines) within Liberty's cap. Upon first glance, these appear to be clash marks from the shield, but they do not match the shield, or part of any U.S. coin of the era, and their true origin remains unknown. We can see no evidence of die cracks on the obverse. The strike is crisp. Any collector would be proud to display a coin of this quality. NGC Price Guide...\$33,000.
4468616	8882	1926 \$10 Indian Eagle -- NGC MS64	\$1,750	Older holder nice bright and lustrous eagle. CDN Collectors Price Guide...\$2020.

45571769	9158	1911-D \$20 Saint Gaudens - PCGS MS65	\$3,850	This Denver issue much scarcer overall than the most frequently seen common dates such as the 1924, and 1927, and 1928. The Denver mintmark adds further appeal to the issue. This piece is well preserved with original vibrant, satiny orange-gold luster nice overall eye appeal. PCGS Price Guide...\$5,500
4468904	9180	1925 \$20 Saint Gaudens -- PCGS MS65	\$2,600	Nice Bright and Original. Better Date Saint. Trends...\$3000. PCGS Price Guide...\$3150.
4377618	9185	1926-S \$20 Saint Gaudens -- NGC MS65	\$27,500	Only 7 finer between both service. Conditionally rare any finer. This attractive Gem exhibits sharply detailed design elements and well-preserved orange-gold surfaces, with vibrant mint luster throughout. Overall eye appeal is outstanding. Despite a large mintage of more than 2 million pieces, the 1926-S Saint-Gaudens double eagle is an elusive issue at the MS65 grade level, and finer coins are virtually unobtainable. Most of the large mintage was held in government storage until the Gold Recall took effect in 1933, and subsequently melted. PCGS Price Guide...\$30,000. CDN Collectors Price Guide...\$31,200.
4466401	89030	1896-S \$20 Liberty Double Eagle -- PCGS MS61PL	\$2,900	Pop 2. Only 6 known. Highly reflective fields support satiny, smartly impressed design elements on both sides of this honey-orange example. To date PCGS has certified just six 1896-S double eagles in the PL category.
